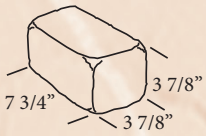
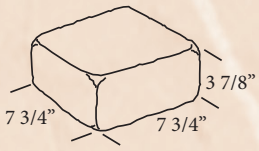
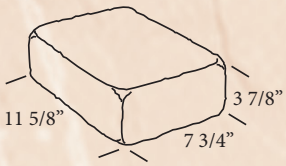
MORROSTONE



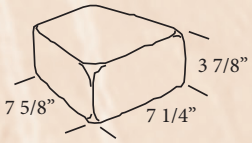
MorroStone 1



MorroStone 2



MorroStone 3



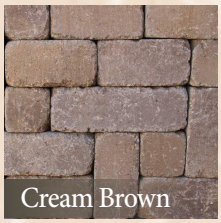
MorroStone Angle

The MorroStone Wall System makes it easy to build low seating walls, fire rings, BBQ enclosures, raised planting beds, or low decorative columns by simply stacking the units in the desired pattern. The 4 block sizes are modular, so you can create your own distinctive patterns by using different combinations.

Use our MorroStone Kits for an outdoor fireplace, a BBQ Island or create your own outdoor living space.

MorroStone can be stacked over concrete or compacted and leveled rock base.

We recommend using concrete adhesive to glue the blocks together.



Cream Brown

Sandstone

Sienna Brown

Gray Charcoal
