

# WINDSOR STONE<sup>®</sup>

## RETAINING WALL SYSTEM

THE TRADITIONAL FACE STYLE GIVES ANY GARDEN A STONE-LOOK WALL WITH A TIMELESS APPEARANCE

### ✔ FEATURES & BENEFITS

- The traditional face style of the Windsor Stone<sup>®</sup> retaining wall system gives any garden wall a timeless appearance.
- Lightweight and easy to handle, the Windsor Stone block is the perfect choice for projects up to 2 feet high, including the buried course, but excluding the cap.\* A matching cap completes the system.
- Planter rings, raised gardens, terraces and retaining walls, you name it – projects look great with the Windsor Stone wall system. Plus, it features the rear-lip locator for quick and easy installation.
- Minimum outside radius measure on the base course to the front of the units is 1'6".
- Minimum inside radius, measured on the base course to the front of the units is 4'0"
- Setback/System Batter 3/4" / 10.6 degree

*\*This height assumes level backfill and clean compacted sand or gravel and no surcharge. The maximum gravity wall height is project specific and may be lower than this height.*

### 🧱 SHAPES & SIZES

WALL	Dimensions* H x W x D (in)	Weight* (lbs)	Coverage (sqft)
	4 x 11 1/8 x 7	22	0.32
CAP	Dimensions* H x W x D (in)	Weight* (lbs)	Coverage (linft)
	2 3/8 x 12/9 x 2 1/2	15	0.88
