

Aquascape Algaecide

Aquascape Algaecide is a liquid algae control product ideal for use in ornamental fish ponds, water gardens, fountains, and container water gardens.

Our new Algaecide effectively controls many types of algae including string algae and green water.

No one wants a green pond so let us help you keep your water clear and reduce your pond maintenance with our easy-to-use, fast-acting Algaecide! Safe for fish and plants, Aquascape Algaecide will not discolor your water or make it cloudy when combatting algae blooms.

- Controls string algae
- Clears green water
- Can be used on ponds with fish and plants

Algaecide is available in 4 different sizes from an 8.5 oz bottle treating up to 2,500 gallons of water to a one gallon container treating up to 40,000 gallons of water.

Direction for use:

It is a violation of federal law to use this product in a manner inconsistent with its labeling. This information contained above and below is used as a guide only. Please read and follow the label explicitly!

Add 1 teaspoonful (5 ml) of Algaecide for every 50 gallons (190 L) of pond/fountain water or 1oz per 300 Gallons. Thoroughly mix Algaecide into pond/fountain by adding near the pump outflow, waterfall, or aeration device. Algaecide can be mixed in a bucket of pond/fountain water and dispersed evenly around the pond/fountain.

- Repeat dose every 3 days until algae is controlled.
- Be prepared to siphon out dead filamentous algae.
- Once algae growth is under control, add one dose every 5 days.
- Weekly doses of Aquascape Algaecide will control algae growth and reduce pond/fountain maintenance.

Available in 4 Sizes:

96022 - 8.5 oz (Treats up to 2,500 Gallons)

96023 - 16.9 oz (Treats up to 5,000 Gallons)

96024 - 33.8 oz (Treats up to 10,000 Gallons)

96026 - 1 Gal (Treats up to 40,000 Gallons)
