

Moduline Series®

Belgard's Moduline Series® paving system was developed to create the ultimate in pattern versatility. All units are based on a true installed 3-inch or 4-inch dimensional increment and have a footprint that allows all units to fit together. All Moduline units have a micro-chamfer to minimize vibration and enhance wheelchair comfort. Additionally, the various aesthetic elements, including colors and textures, create unique patterns, accents, and borders, making the possibilities truly endless.
