APPIAN-STONE®

Square
 6 5/16 x 6 5/16 inches (160 x 160 mm)
 2 3/8 inches (60 mm) thick
 Approx. 3.62 pavers/ft²

The Appian Way was built in 312 B.C. It stretched over 350 miles and connected Rome, Naples, Bari and other ancient ports of call.

Appian-Stone®. The definition of classic.

The Old World meets maintenance-free, modern durability in Appian-Stone® pavers. Named after Europe's famous Appian Way, these pavers give your hardscape a natural look and feel that evokes another age. Suitable for pedestrian and vehicular traffic, Appian-Stone® is available in a wide range of colors. Several pattern designs add even more flexibility to your project.

APPIAN-STONE®

Rectangular
 6 5/16 x 9 7/16 inches (160 x 240 mm)
 2 3/8 inches (60 mm) thick
 Approx. 2.42 pavers/ft²

The PaverSystems Quality Assurance™ Our pavers are designed to the highest standards for durability, color and texture. All PaverSystems™ pavers comply with or surpass ASTM C-936-01 standards.

Pavers with textured or profiled tops, such as our Appian-Stone® series, are susceptible to damage from plate compactors due to the high and low points that are molded into the surface. Manufacturers of plate compactors recommend the use of mats or membranes between the compactor and all types of pavers to protect the paver surface from damage. PaverSystems™ will not be held responsible for compaction scuffs or scarring on paving stones.

Colors printed here are reproduced as accurately as possible; however, every paver is unique and may not exactly match what you see. For the best idea of actual color and texture, ask your installer for samples of your favorite pavers.
