

## Slow Release SGN 250

BEST® by Simplot leads the industry in providing a broad range of slow-release fertilizers using exclusive GAL-Xe<sup>ONE™</sup>, NutriSphere-N®, X-Cote™, UFLEXX® and UMAXX® technologies. With application costs rising and environmental concerns escalating, BEST produces long-lasting fertilizers that save time, save money and benefit the environment.

### Palm Plus™ 13-5-8

63% SAN

A professional, high quality three to four month controlled release fertilizer containing GAL-Xe<sup>ONE™</sup>. Although equally effective on other plants, it is specifically formulated for use on palms in nurseries and landscaped areas. **7516750# 50 LB. BAG**

### Landscape Color™ 14-14-14 with GAL-Xe<sup>ONE™</sup> 70% SAN

A complete and balanced fertilizer that safely supplies all necessary nitrogen, phosphorus and potassium with an excellent micronutrient package to your annual, perennial and bedding plants. 70% of the nitrogen is from GAL-Xe<sup>ONE™</sup> which has a predictable release rate of a three to four month period, depending on your climatic conditions. **7516050# 50 LB. BAG**

### Endure 16-16-16 with GAL-Xe<sup>ONE™</sup> 43 and X-Cote™ 73% SAN

This is excellent to use as a pre-plant fertilizer and for over-seeding applications. Endure 16-16-16 is formulated using BEST homogeneous pellets and two sources of slow-release nitrogen from GAL-Xe<sup>ONE™</sup> and X-Cote™. **7527550# 50 LB. BAG**

### Pro Start 16-24-10 with GAL-Xe<sup>ONE™</sup> 53% SAN

A high-phosphorus preplant/starter that utilizes GAL-Xe<sup>ONE™</sup> (polymer-coated urea) to extend nitrogen release to give your turf the ratio and timing of nutrient release needed for healthy plant establishment. **7538150# 50 LB. BAG**

### UMAXX® 19-3-19 65% Stabilized Nitrogen

Contains UMAXX® stabilized nitrogen that provides even growth and long-lasting turf color. Provides turf responses that can last up to 10 weeks. Contains 3% iron for deep green color. **7405650# 50 LB BAG**

### All-Season 19-6-12 with GAL-Xe<sup>ONE™</sup> 43 52% SAN

A combination of GAL-Xe<sup>ONE™</sup> (polymer-coated urea) and a premium homogeneous pellet provides a 3:1:2 ratio in a slow-release formula for the maintenance of turfgrass and ornamentals. It provides a nitrogen response for up to 12 weeks and is ideal for the professional turf manager. **7506950# 50 LB. BAG**

### Cascade K 21-2-21

80% SAN

A premium quality slow-release fertilizer especially formulated with low sulfur to provide 16 weeks of response for Western growing conditions. This three-particle 1:1-N:K mixture provides 80% of its total nitrogen from GAL-Xe<sup>ONE™</sup> (polymer-coated urea). **7517450# 50 LB BAG**

### NK Basic 22-0-6 with 3% Iron

31% SAN

An economical slow-release zero-phosphate fertilizer. Great turf response from FUSN and color maintenance from X-Cote™. Extra iron has been added to help maintain the green color in turf. **84013850# 50 LB BAG**

### Turf Gold® 22-5-6 with X-Cote™

40% SAN

A combination of two high-quality products – professionally accepted Turf Supreme® and X-Cote™ for a non-burning, slow-release fertilizer containing 13% sulfur. **7403450# 50 LB BAG**

### UFLEXX 23-3-6

59% Stabilized Nitrogen

Contains UFLEXX stabilized nitrogen that can provide up to eight weeks of turf color. Extra non-staining iron from Best homogeneous pellets to help maintain deep green color turf.

**81126050# 50 LB. BAG**

### Poly Supreme 23-5-10

65% SAN

A high-quality, slow-release fertilizer containing GAL-Xe<sup>ONE™</sup> (polymer-coated urea) and X-Cote™ (polymer-coated, sulfur-coated urea). It delivers 65% of its nitrogen through slow-release providing up to 16 weeks of nitrogen response. Potassium sulfate and iron are part of an NPK pellet, which virtually eliminates the possibility of staining. **7517550# 50 LB BAG**

### Full Season 24-4-8

68% SAN

A premium high quality 6:1:2 ratio formulation for all varieties of turf, providing season-long color. Contains 68% SRN from GAL-Xe<sup>ONE™</sup> (polymer-coated urea) for consistent, predictable release of nitrogen, providing up to 20 weeks of response. **7554150# 50 LB. BAG**

## GAL-Xe<sup>ONE™</sup>

GAL-Xe<sup>ONE™</sup> is an advanced, high-performance, polymer-coated fertilizer that precisely controls the speed of nutrient release over a set period of time.

GAL-Xe<sup>ONE™</sup> coating technology reduces labor and equipment costs due to fewer applications.

GAL-Xe<sup>ONE™</sup> technology was developed with support from NASA.
