

The KwikCut product line is designed by contractors for contractors.

Our new Kwikcut product selection, led by the highly anticipated R125 double action ratchet cutter are quite simply the finest cutting products on the market anywhere, at any price. This comprehensive line features cutting-edge innovations in design, ergonomics, and functionality. These products are rugged, lightweight and highly visible. Designed to meet and exceed every contractor's expectation.

KwikCut Line of Tools Include:

The Legendary KwikCut (Original)

Multi purpose cutter designed to make quick work of thin wall PVC, Poly pipe, hose and tubing. Our blade is forged from the longest lasting, highest quality metal. This creates a blade that is sharper and holds an edge longer for more clean, precise cuts. KwikCut Advance *Spring Action* model cuts your work time in half.

The NEW Ratchet Cutter

KwikCut Ratchet Cutter is ideal for heavy wall plastic pipe and plastic conduit. The Double action ratchet gives you loads of extra power and the blades are precision milled to give a clean cut with very little effort. Smooth one-handed operation with push button safety release and locking mechanism.

The NEW Rope Saw

The KwikCut Rope Saw will cut wood, plastic, rubber and more. It cuts in places you can't get to with a larger saw and cuts in any direction. Comfort grips allow you to use your hands instead of just your fingers. Carry one in your tool box for any situation.

The NEW HackSaw

Another KwikCut innovation brings you the finest high performance hacksaw you can find. It's rigid frame helps blades last longer and cut straighter. It's stronger and more comfortable to use than other hacksaw frames. This saw offers more versatility and can easily make standard or flush cuts.

The NEW PVC Hand Saw

For cutting large PVC or ABS pipe, no other saw does it faster or straighter than the KwikCut PVC Saw. Our dual direction precision steel blade makes for easier starts and features our quick-change design that lets you change blades without tools. Available in 9", 13" and 18" lengths.
