FERTI-MAXX FERTILITY

FERTI-MAXX LANDSCAPE

23-13-8 WSP

Designed as a high growth product for rapid landscape maturation and development

- Boosted with Organic Humic and Fulvic Acid
- Mycorrhizae improves performance on trees and shrubs
- Effective in spring, summer and hot weather
- Recommended application rate - 1 pound per 2,000 sq. ft.

FERTI-MAXX TURF

26-6-16 WSP

Designed as a high growth product for rapid turf recovery and repair

- Slow release nitrogen for lasting performance
- Boosted with Organic Humic & Fulvic Acid
- Effective in warm and hot weather
- Recommended application rate - 1 pound per 2,000 sq. ft.

FERTI-MAXX STARTER

8-18-28 WSP

Designed as a transplant and winterizing blend to protect your landscape investment

- Boosted with Organic Humic & Fulvic Acid
- Mycorrhizae for improved performance on trees and shrubs
- Effective in cool, warm and hot weather
- Recommended application rate - 1 pound per 2,000 sq. ft.

FERTI-MAXX BALANCE

18-18-18 WSP

Universal balanced blend for all types of landscapes and gardens

- Boosted with Organic Humic & Fulvic Acid
- Mycorrhizae for improved performance on trees and shrubs
- Effective in spring, warm and hot weather
- Recommended application rate - 1 pound per 2,000 sq. ft.

FERTI-MAXX COOL

18-8-18 WSP

High nitrate blend for fast establishment of turf grasses in cool weather

- Boosted with Organic Humic & Fulvic Acid
- Improved seed germination and root development
- Effective in cool, spring and warm weather
- Recommended application rate - 1 pound per 2,000 sq. ft.

FERTI-MAXX PHOS FREE

25-0-25 WSP

Phosphorous Free blend for use on all plant material where regulations limit the application of Phosphorous

- Boosted with Organic Humic & Fulvic Acid
- Improved seed germination and root development
- Effective in cool, spring and warm weather
- Recommended application rate - 1 pound per 2,000 sq. ft.

FERTI-MAXX FISH

2-3-1 LIQ

Derived from organic farm raised trout with a cold hydrolysate extraction process providing higher nutrient retention

- High Carbon content essential for building stronger plants
- Best when optimized with **ROOT-MAXX**
- Effective in spring, warm and hot weather
- Recommended application rate - 1 gallon per 10,000 sq. ft.

FERTI-MAXX SUGAR

3-1-2 LIQ

Designed as low growth product for landscape health development and retention

- High sugar content for quick microbial development & support
- Best when optimized with **ROOT-MAXX**
- Effective in cool, warm and hot weather
- Recommended application rate - 1 gallon per 10,000 sq. ft.

WSP = Water Soluble Powder
LIQ = Liquid Product

FERTI-MAXX ORGANIC

10-0-10 WSP

Derived from Organic Protein Hydrolysate and Potassium Citrate

- Highly concentrated water soluble powder
- Fulvic Acid complex to provide unparalleled nutrient release
- High amino acid / protein content
- Use year round
- Recommended application rate - 2 pounds per 10,000 sq. ft.

FERTI-MAXX SUPPLEMENTS

IRON-MAXX

6-0-0 LIQ

Designed to provide dark green color to plants without added growth

- 5% Chelated non-staining iron supplement
- Effectively treats iron deficiency
- Can be added to all **FERTI-MAXX** products and / or fertilizer blends
- Use year round, effective in cool and hot weather
- Recommended application rate - 1 gallon per 10,000 sq. ft.

ROOT-MAXX

0-0-0 LIQ

Designed to maximize root development and improve nutrient uptake with organic Humic Acid and Mycorrhizae

- Improve nutrient and water retention
- Low application rate - as low as 1 quart per acre
- Can be added to all **FERTI-MAXX** products and / or fertilizer blends
- Use year round, effective in cool and hot weather
- Recommended application rate - 1 quart per 10,000 sq. ft.

COLOR-MAXX

6-0-0 LIQ

Color enhancement of the landscape with low growth

- Promotes color, activates greening and stabilizes growth
- Broadens leaf structure and enhances nutrient uptake
- Can be added to all **FERTI-MAXX** products and / or fertilizer blends
- Use year round, effective in cool and hot weather
- Recommended application rate - 1 gallon per 10,000 sq. ft.

WATER-MAXX WATER TREATMENT

HYDRO-MAXX

0-0-0 LIQ

Wetting agent that can mix with all **FERTI-MAXX** products and / or fertilizer blends

- Reduces water usage up to 30%**
- Reduces nutrient and chemical requirements
- Maintains drip emitters**
- Frees calcium allowing nutrients to penetrate the full soil profile
- Provides consistent moisture penetration and reduces water runoff
- Low application rate of 32 oz. per acre

MAXX-FLUSH

6-0-0 LIQ

Eliminates salt and adds calcium to the soil

- Saves water, reduces nutrient and chemical requirements
- Helps remove excessive salts, excellent for reclaimed water
- Breaks ups compacted soil for more efficient water penetration
- Apply alone, 2.5 gallons per 10,000 sq. ft.**

HYDRO-CLEANSE

0-0-0 LIQ

Organic acid that cleans drip emitters, opens up plugged systems, prevents plugging and keeps drip systems clean

- Reduces pH, loosens clay soils, buffers hard water
- The only acid compatible with EZ-FLO injectors**
- Test for compatibility prior to mixing**
- Application rates down to 1 gallon per acre
