its labeling.

ICATION.

This product may only be used in manual, subterranean applications to control valley pocket gophers (*Thomomys talpoides*), northern pocket gophers (*T. talpoides*), Mazama pocket gophers (*T. mazama*), Townsend's pocket gophers (*T. townsendi*), giant pocket gophers (*T. talpivorus*), and plains pocket gophers (*T. monticola*), and plains pocket gophers (Geomys bursarius) around burrows. This product may only be applied at the use sites and by the application methods

times. This product may only be applied at the use sites and by the application methods indicated on this label. Bat must be applied directly into pocket gopher burrow systems. Do not apply this product above the ground surface. Do not apply this product by use of a mechanical arrow blower machine or any other type of mechanical application equipment, including mechanized probes. Do not broadcast bait.

Trace baits in main runways. To locate main runways, probe 12 to 18 inches from the surface around on the side which is flattened or depressed using a burrow probe or a smooth metal rod. When resistance on probe suddenly decreases, probe is in the main runway. Open the runway.

In the probe, a spade or a shovel. Place one ANSWER® BALL BLOCK® into each opening or a runway and cover the opening securely to exclude light. Do not permit the loose soil to

phers will normally travel to all portions of its burrow system within a few days. As some phers may die above ground, check the area periodically for 10 to 15 days after treatment. If pocket gopher activity persists or incoherate (if permitted locally) any dead animals found.

FOLLOW-UP: Wearing waterproof gloves, collect and dispose of dead, exposed animals. Dispose of leftover bait in accordance with disposal instructions. If reinestation does occur, repeat treatment.

DO NOT CONTAMINATE WATER, FOOD, OR FEED, BY

STORAGE ON DISK COAL

USE/STICIDE DISPOSAL: Non-refillable container. Do not reuse or refill this container. Empty. Place in trash or offer for recycling if available. Do not place in curbside recycling bin. Do not place in household trash. Call your local solid waste agency for disposal instructions. Never place unused

product down any indoor or outdoor drain.

The diagram illustrates a river crossing with a vertical structure. A vertical line represents the structure, with a horizontal line extending from it. Two red 'X' marks are placed on the horizontal line, labeled 'CORRECT LOCATION FOR BAIT' and 'CORRECT LOCATION'. A 'PROBE' is shown on the left side of the structure, and a 'PLUG' is shown on the right side. The river is labeled 'MAIN RUNWAY' and 'LATERAL RUNWAY'.

CAUTION: Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Keep away from children, domestic animals and pets. Wear waterproof gloves. Any person who retrieves carcasses or unused bait following application of this product must wear waterproof gloves. Wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.
