DIRECTIONS FOR USE

Read all *Directions for Use* carefully before applying this product. See EutroSORB WC product use guide for additional information.

Obtain Required Permits: Consult with appropriate state or local water authorities before applying this product in or around public waters.

APPLICATION INFORMATION

This product can be directly applied to or injected in surface waters and can be used in or around public waters.

For best results, distribute EutroSORB WC uniformly over the surface of the waterbody or the area targeted for phosphorus inactivation. When making applications to flowing waters (e.g., rivers, streams, canals, ditches, etc.), drip or inject EutroSORB WC at a location where adequate mixing occurs to optimize phosphorus binding.

The phosphorus binding of this product will depend on water quality parameters and site specific conditions. Please consult a SePRO Technical Specialist for guidance in implementing a treatment program to achieve optimal results.

For site specific rate and treatment recommendations, contact **your SePRO Technical Specialist or SePRO Corporation at 1-800-419-7779**.

Warranty Disclaimer: SePRO Corporation warrants that testing and research have determined this product is reasonably fit for the uses described on the product label. To the extent consistent with applicable law, SePRO Corporation makes no other express or implied warranty of fitness or merchantability nor any other express or implied warranty and any such warranties are expressly disclaimed.

Misuse: Federal law prohibits the use of this product in a manner inconsistent with its label directions. To the extent consistent with applicable law, the buyer assumes responsibility for any adverse consequences if this product is not used according to its label directions. To the extent consistent with applicable law, in no case shall SePRO Corporation be liable for any losses or damages resulting from the use, handling or application of this product in a manner inconsistent with its label.
