

*The PM is engineered without compromise in the spirit of a large contemporary commercial bollard. Precisely milled from 6061 T-6 alloy, this model looks and performs like no other. Computer-designed parabolic reflector, diffuser cone and optics work together to produce long projection beam spread with no glare. All exterior components are finished with a military marine-grade process of acid etching, chromate plating and polyester powder coating to assure long-term appearance and integrity.*

## PM: Path Light

### *Unlimited Applications*

The PM has been used in a wide array of projects, from an NBA all-star's home to the entrance of a research science lab. Simple form and high performance make this an extremely versatile fixture.
