# FELCO 630

Curved saw | Full-stroke pruning saw | Blade 33 cm (13 in.)

The FELCO 630 pull-stroke saw is the choice for taking on heavy duty cutting and pruning. The curved design of the innovative blade cuts through even large branches up to 12cm/4.7 inches with ease, even when cutting overhead. The high performance tooth setting combined with the curved blade optimizes the entire blade length, quickly removes sawdust with exceptional efficiency to produce remarkably clean, smooth cutting results. With the FELCO 630's speed of operation there's every chance that you might run out of pruning before you are ready to stop.
