PRODUCT DESCRIPTION

Revive and protect your palms with **Endurant Shine N Shield** the ultimate solution for restoring a fresh, vibrant look. This premium satin-finish formula enhances the natural beauty of palm trunks, bringing out a rich, renewed shine while providing a protective shield against the elements.

Features & Benefits:

Restores & Brightens: Brings back the original luster of palms, making them look brand new.

Satin Finish: Delivers a clean, polished look without an overly glossy appearance.

Long-Lasting Protection: Helps shield against environmental wear and tear.

Easy Application: Designed for seamless use with professional results.

Give your palms a fresh, revitalized look with **Endurant Shine N Shield** where restoration meets protection!

DIRECTIONS FOR USE

Achieve a beautifully restored and protected look for your palm trunks with **Endurant Shine N Shield**. Follow these steps for the best results:

Step 1: Initial Sealing Application

For the first application, mix Endurant Palm Colorant with **Shine N Shield** to both color and seal the palm trunk. This base coat ensures protection and prepares the surface for additional shine if desired. Allow the application to fully dry before applying any additional coats.

Step 2: Enhancing Shine (Optional Additional Coats)

Once the initial application has dried, apply **Endurant Shine N Shield** in the desired ratio to achieve your preferred level of shine:

Minimal Shine: Mix 2 parts water with 1 part **Shine N Shield** and apply evenly.

Medium Shine: Mix 1 part water with 1 part **Shine N Shield** for a balanced glossy finish.

High Shine: Use **Shine N Shield** as a ready-to-use product (no dilution) for a maximum shine effect.

Application Process

1. Preparation:

Clean the palm trunk thoroughly, removing dirt, dust, and debris. Ensure the surface is completely dry before application.

2. Application:

Use a pump sprayer or HVLP sprayer for even coverage. For precision, apply using a soft brush or sponge

3. Drying & Curing:

Allow each coat to dry for 30-60 minutes before assessing shine.

If adding another coat for increased shine, ensure the previous coat is fully dry before applying.

Full curing time: Up to 24 hours for maximum durability.

Best Practices

Apply in dry conditions and avoid rain within 24 hours of application.

Store unused product in a cool, dry place and use within 6-9 months for optimal results

WARNING: THIS PRODUCT WILL STAIN MANY SUBSTRATES INCLUDING BUT NOT LIMITED TO: PLANTS, ROCKS, STEPPING STONES, SIDEWALKS, PAVERS AND DRIVEWAYS. AREAS WHICH MAY UNINTENTIONALLY BE COLORED SHOULD BE PRE-WET AND THEN THOROUGHLY RINSED WITH WATER IMMEDIATELY FOLLOWING TREATMENTS. DO NOT APPLY UNDILUTED PRODUCT.
