

WeatherTRAK[®] ET Pro3[®]

Smart Irrigation, Perfect Landscapes

The WeatherTRAK ET Pro3 smart irrigation controller uses ET Everywhere[®], the most precise, high-resolution weather data available, to create specific schedules to maintain your landscape health with the least amount of water possible.

With its proven ability to tune irrigation to your unique landscape and site characteristics, the WeatherTRAK ET Pro3 controller reduces water waste by only irrigating when it is necessary – saving you time, resources, and money.

Get more done in less time with WeatherTRAK Central programming and management

Real-time flow alerts make every site and schedule perform more efficiently

Speed up wet checks, troubleshooting, and installs with WeatherTRAK Mobile

IRRIGATION TUNED BY THE CLOUD

WeatherTRAK algorithms consider factors such as weather, plant type, and soil type to know how much water is available to the plant within the soil. If the plant has enough water, irrigation isn't scheduled. These decisions are automatically planned and constantly optimized.
