Volume II

PANORAMA™ DEMI - EDDINGTON BLEND / HARINGTON® FREESTANDING 3-PC - OZARK BLEND

Just imagine the possibilities...

A backyard sanctuary to relax and recharge, a gathering space to entertain family and friends, a stunning driveway and walkways to make a great first impression... every day Keystone Hardscapes helps turn dreams like these into realities.

At Keystone Hardscapes, we are committed to providing unrivaled product selection, quality and customer service. Since the 1980s, our products have been installed in thousands of residential and commercial properties. Our innovative and versatile paving, wall and outdoor living elements continue to be favorites of homeowners, contractors, designers and developers alike.

Keystone Hardscapes is where beauty and functionality meet; where outdoor dreams come to life.

Locally made products, nationally trusted brand. No need to put off until tomorrow what we can build together today. Trust us to help transform your residential or commercial property.

ADA Detectable Warning Paver

The ADA Detectable Warning Paver is an additional guidance provision for wheelchair and pedestrian access to streets, sidewalks and other components of the public right of way. This product will help ensure local jurisdictions and other entities that their facilities are accessible to people with physical or sensory disabilities. The ADA Detectable Warning Paver provides visual as well as textural contrast to conventional publicly utilized pavements.

VENETIAN® Flag

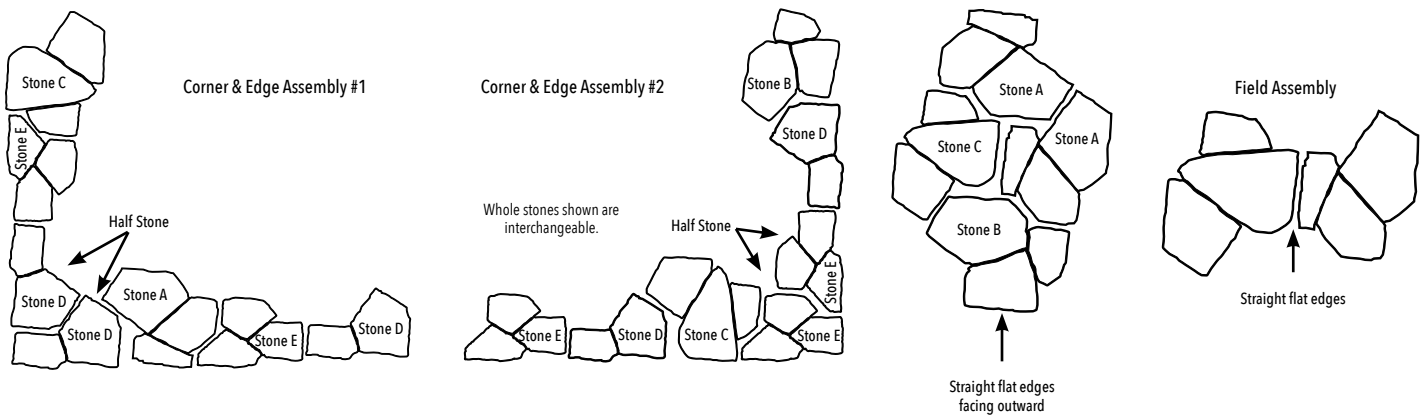

Venetian - Flag is great for the customer who desires a look of flagstone without the high cost. Venetian - Flag has several design features unmatched by industry standards including a pattern that is virtually undetectable and that starts easily along a straight edge or string line. Venetian - Flag self-terminates on 2' centers and makes a continuous 4' wide walkway with zero cuts.

KEYSTONE COMPAC® - Straight

A specifier's favorite, Keystone Compac features unrivaled aesthetic options, cost saving versatility and proven wall performance. Installer's prefer the Compac's lighter weight and shorter tail design which make it easy to handle. Trusted by architects, engineers and contractors worldwide, the Keystone Compac unit utilizes the proven Keystone pin connection system.

2 Connection pins required per unit. Pins allow for near-vertical or battered setback construction options.

SAND BLEND

REGAL STONE PRO® - RockFace 3-pc

Regal Stone Pro - RockFace 3-pc brings the latest look and appeal in architectural design with its addition of the two smaller modular components. The three-piece system separates itself by creating alternating scale and dimensions. While the system still meets the rigorous demands for both engineering and structural components, its multiple shape patterning creates new and innovative applications for site work designs.

STRAIGHT - SAND BLEND

TRI-PLANE

REGAL STONE PRO® - Straight & Tri-plane

The Regal Stone Pro - Straight & Tri-plane take retaining wall construction to a higher level. Architects, engineers, and contractors are choosing Regal Stone Pro to create flexible, cost-effective solutions for a broad range of large commercial, municipal, and residential retaining wall projects. With the rear lip design and a larger facial profile, construction, alignment, and setback are facilitated.

HARINGTON® 3-pc

The Harington 3-pc retaining wall system evokes the texture and look of natural stone, making a striking architectural statement. The hand-hewn facing creates a stone-like appearance while the rear lip eliminates setback and alignment issues to speed construction. Available in blended earth tone colors, these retaining wall units are a reliable, easy-to-install alternative to natural stone walls.

ACCESSORIES

SB-7700 SEMI-GLOSS JOINT STABILIZING SEALER WITH ANTIFUNGAL FILM PROTECTION – Joint Stabilizing Sealer is a water-based, single component, self-crosslinking acrylic co-polymer sealer and joint sand stabilizer with outstanding durability. SB-7700 is specially formulated with an antifungal designed to help inhibit the growth of mold, moss and algae on the sealer film when applied to horizontal or vertical surfaces.

SB-8700 WET LOOK JOINT STABILIZING SEALER WITH ANTIFUNGAL FILM PROTECTION – Wet Look Joint Stabilizing Sealer is an advanced premium acrylic sealer that is 'rain safe' 90 minutes after application and will not yellow under exposure to sunlight. It is a 3 in 1 product, it enhances surface tone with semi-gloss finish, protects the substrate surface and stabilizes joint sand. SB-8700 is specially formulated with an antifungal designed to inhibit the growth of mold, moss and algae on the sealer film when applied to horizontal or vertical surfaces.

EFFLO OFF EFFLORESCENCE, MINERAL & SALT DEPOSIT CLEANER – Efflo Off is a buffered, non-acid, organic salts, technologically advanced concentrated cleaner designed for the removal of efflorescence, mineral and salt deposits from virtually any type of hardscape surface with minimal or no brushing. Efflo Off's unique Clean Rinse Technology allows residue to be quickly and easily rinsed away with a high or low pressure washer.

COMMERCIAL GRADE POLYURETHANE CONSTRUCTION ADHESIVE – High performance, commercial grade adhesive designed for permanently bonding concrete, brick, marble, stone, wood, glass, aluminum, steel, PVC and tile.

Use For: Repairing broken concrete • Bonding retaining wall block and caps

SUPERIOR STRENGTH SOLVENT-BASED ADHESIVE – SRW Adhesive is the strongest adhesive of its kind. It is formulated for retaining walls, pavers, block, masonry, concrete, aluminum, steel and most common landscaping materials. Superior strength and longevity, works on wet or frozen surfaces, extrudes down to 10°F, will not freeze, permanent bond and for interior/exterior use.

POLYMERIC SAND – Polymeric Sand is a precise mixture of polymer binders and clean natural sand. Polymeric Sand will bond with the pavers/stones adding strength to the joint as well as reliability to the pavement system. It is ideal for use on any paver surface such as sloping areas, driveways, patios, pool decks, sidewalks, etc.

BEFORE - NO SEALER

AFTER - WITH SEALER

SNAP EDGE PAVER RESTRAINT – Edge restraints secure the hardscape system and are a necessity in any hardscape project installation if you want it to look beautiful through the years. To avoid the high cost of paver edge restraint failure and ultimately protect your reputation, carefully consider the many factors that affect the edge restraint's performance over the lifetime of a paver project.

CEMENT & CONCRETE PRODUCTS™

Contact Your Local Representative for availability on the full line of QUIKRETE® products such as bagged concrete mixes, concrete repair products, and masonry products.

COLOR VARIATIONS

As in all natural materials, color in paving stones and wall stones has inherent variations. Paver and wall color is affected by the variances in the raw materials, concrete mixture, moisture content, climactic conditions, and other variations. Therefore, the colors shown are approximate representations of paver and wall colors, but should not be expected to be an exact match of what will be delivered.

THE NATURE OF EFFLORESCENCE

Another cause of color variation in paving stones and wall stones may be the natural phenomenon called efflorescence. Efflorescence, a deposit of white salts consisting of mostly calcium carbonate, may appear as a white powder on the paver or wall surface and in no way affects the structural integrity. This phenomenon occurs in all concrete and although it cannot be completely prevented from occurring, efflorescence generally will weather off and disappear over time or can be removed with cleaners at the job site.
