### PRODUCT DESCRIPTION

LESCO® Nutra-TECH 12-0-0 with 1% Zn is a liquid fertilizer that contains an economical combination of water-soluble Iron, water-soluble Manganese, and water-soluble Zinc to help promote dark green color in plants.

### DIRECTIONS FOR USE

Application rates should be based on tissue or petiole analysis. On plants with waxy leaf surfaces, 12 ounces (355 mL) of a non-toxic wetting agent per 100 gallons (380 L) of finished spray will aid leaf penetration. Add LESCO Nutra-TECH 12-0-0 with 1% Zn to half of the water, then agitate while adding the remaining water. Add urea or other fertilizers. Add herbicides last while continuing to agitate tank contents. Spray solution as soon as possible. LESCO Nutra-TECH 12-0-0 with 1% Zn tank mixes are generally stable; however, agitate before spraying if the spray tank mix has been standing for more than 24 hours..

In the state of Florida, depending on use site, this product should be applied at rates not exceeding those recommended in the following documents:

1. University of Florida, Institute of Food and Agricultural Sciences SL191 "Recommendations for N, P, K and Mg for Golf Course and Athletic Field Fertilization Based on Mehlich III Extractant,"
2. "Best Management Practices for the Enhancement of Environmental Quality on Florida Golf Courses," published by the Florida Department of Environmental Protection,
3. "Florida Friendly Best Management Practices for Protection of Water Resources by the Green Industries," published by the Florida Department of Environmental Protection
