

HydroCover™ – #089766

Cellulose – 100% Paper

Provides erosion control that is superior to straw...

Advantages:

- Exclusive defibration and manufacturing processes improve water-holding capacity by 22%
- Lower percentage of fines greatly reduces maché effect
- Shoots well — allows machinery to run efficiently while providing excellent ground coverage
- High-quality, clean 100% cellulose fiber mixes in water at an accelerated rate and stays in suspension for more uniform consistency
- Darker and richer green color than competing brands gives your work a more professional look from the very beginning
- Meets or exceeds all requirements for wood cellulose fiber mulch
- Non-toxic, environmentally safe and biodegradable
- Maximum slope length of 18 feet
- Can be used in all types of hydraulic seeding equipment
- HydroCover™ Cellulose functional longevity is ≤ 3 months

Composition:

Cellulose Fiber – $88\% \pm 3\%$
Moisture Content – $12\% \pm 3\%$

(40) 50-lb bales per pallet

Slope Gradient/Condition
 $\leq 4:1$

lb/acre
2000 lb/acre
