

**DIRECTIONS FOR USE**

Application timing and rates of LESCO-Wet PLUS will depend upon the time of year, soil type, thatch depth and varying local Conditions.

**FINE TURF, LOCALIZED DRY SPOTS, GREENS AND TEES**

For preventive applications, start at least one month before moisture stress is expected. Apply at a timed rate of 2-3 minutes of syringe watering per typical localized dry spot. It is best to treat once per week for the first two weeks. Then treat every 2 to 3 weeks or as needed depending on conditions. Watering in is not required. Irrigate as usual between LESCO-Wet PLUS applications. For existing in-season problems, double application time to 6-8 minutes. Remove applicator and water in thoroughly after treatment to wash in LESCO-Wet PLUS for maximum soil penetration. For maximum dry spot control, LESCO-Wet PLUS should be used in conjunction with standard management programs, such as coring, thatch management and syringing for reduced canopy temperature.

**FINE TURF, GENERAL COVERAGE AND TREATMENT OF GREENS**

For preventative applications, apply once every week for two weeks at a timed rate of 12 - 15 minutes per 8000 - 9000 sq. ft. Watering in is not required. Irrigate as usual between LESCO-Wet PLUS applications.

Dew Control - Apply one (1) Pellet per 6,000 ft2 of turf to help control the occurrence of dew. For extended control, repeat application after one week.

**CAUTION:** Keep out of reach of children. Users are cautioned to take reasonable safety precautions when handling and applying this product. Do not use on food crops destined for human or animal consumption.

**PRECAUTIONARY STATEMENTS**

**CAUTION:** Avoid contact with eyes, skin and clothing. Use proper hygiene when handling. Impervious gloves and goggles/safety glasses/safety shield are recommended.

**STATEMENT OF PRACTICAL TREATMENT**

- Product causes eye irritation unless flushed immediately with water for 15 minutes. Seek medical attention.
- Do not take internally. If ingested, call physician or poison control center immediately.
- Avoid breathing vapor or spray. If inhaled, move user to fresh air and seek medical attention.
- If on skin, wash with soap and water. Remove contaminated clothing. If irritation persists, seek medical attention.
