Granular Iron Plus

ELITE[®]

LESCO[®] MICRONUTRIENT SUPPLEMENT

For use in Rotary Spreaders Only

50 lb COVERS 10,000 sq ft

DIRECTIONS FOR USE: This LESCO product is a professional quality turf supplement for use on putting greens, tees and other turf. The best results with this product are obtained when it is applied to dry turf and actively growing grass. Water into the turf soon after application. Avoid mowing immediately following application to prevent pick-up.

Use as a supplement to correct soil deficiencies or as a supplement to a sound fertility program. Soils must contain residual nitrogen for optimum response. Actual rates and timing of applications will vary with weather, soil and turf conditions. Increased rates may be necessary on alkaline soils.

For best results, sweep or blow off walks and painted surfaces following application to avoid discoloration.

For additional LESCO, Inc. product assistance call 1-800 347-4272.

COVERAGE: 50 pounds of LESCO ELITE Granular Iron Plus covers approximately 10,000 sq ft at the application rate of five pounds of product per 1,000 sq ft.
