

Highest Germination Rate | Advanced Testing | Unparalleled Standards

FEATURES

- Advanced generation cultivars
- Premium turf quality
- · Excellent traffic tolerance
- Dark green color
- · Popular mix formulation
- Quick establishment

AGRONOMIC CHARACTERISTICS

50/50 Select Mix is designed for athletic fields, parks, and home lawns. This mixture combines two species to enhance disease resistance and tolerance to climactic extremes. 50/50 Select Mix creates a durable and aggressive turf for new establishment or renovation. This mix will establish quickly for a maximum competition against annual weeds and will green up quickly in the spring.

SUGGESTED USAGE

50/50 Select Mix is well suited for athletic fields, and premium commercial areas and home lawns. This mix is well suited for renovation of Kentucky bluegrass and perennial ryegrass areas with excellent rooting and recovery on compacted soils than 100% bluegrass blends.

TURF ESTABLISHMENT GUIDELINES

Adequate seed bed preparation is Important in new turf grass establishment as well as in overseeding. Check soil pH and apply LESCO starter fertilizer prior to seeding. Cool-season grasses germinate best in the 60° to 85° F (16° to 30° C) soil temperature range. Frequent light Irrigation and/or seed starter mulch is required for optimum germination. Germination should be visible within 21 days; complete turf establishment will take six to eight months to exhibit mature growth characteristics.

RECOMMENDED MAINTENANCE PRACTICES

Highest quality and durability are reached using moderate maintenance levels. Allow turf to establish prior to heavy use. Mowing height at 1/2" to 2 1/2" is recommended (lower mowing heights require higher maintenance).

ENVIRONMENTAL TOLERANCE

50/50 Select Mix is adapted to cool arid and cool humid zones.

INGREDIENTS

50% Perennial Ryegrass (2 Varieties) 50% Kentucky Bluegrass (2 Varieties)

SEEDING RATES

New Establishment: 3-4 lb./1000 sq. ft.

Renovation:

20-50% existing cover 2-3 lb./1000 sq. ft.

50-75% existing cover 1.5-2 lb./1000 sq. ft.

PACKAGING INFORMATION

50 lb. bag #20-13-250 10 lb bag #083457 50 lb. bag Opti-Root Treated #20-13-253 Woven Polypropylene Bags
