

LESCO®

TALL FESCUE SELECT BLEND

TURF-TYPE TALL FESCUE BLEND: BLUE TAG CERTIFIED

Highest Germination Rate | Advanced Testing | Unparalleled Standards

FEATURES

- Advanced generation cultivars
- Dark green color
- Heat and drought tolerant
- Wear tolerant
- Dense upright growth habit
- Blue Tag Certified
- Zero crop and zero weed content

AGRONOMIC CHARACTERISTICS

Tall Fescue Select Blend will provide a durable turf that will tolerate drought, heat, shade, and traffic. The varieties in Tall Fescue Select Blend contain endophytes to increase resistance to above ground feeding insects. When seeded at recommended rates, Tall Fescue Select Blend will form a dense, fine textured turf with excellent mowing qualities. Tall Fescue Select Blend components have undergone turf trials to screen for desirable traits including disease resistance.

SUGGESTED USAGE

Tall Fescue Select Blend is suitable for golf course roughs, home lawns, athletic fields, commercial turf areas, parks and playgrounds, particularly where irrigation is limited.

TURF ESTABLISHMENT GUIDELINES

Adequate seed bed preparation is important in new turf grass establishment as well as in overseeding applications. Check soil pH and apply LESCO starter fertilizer prior to seeding. Cool-season grasses germinate best in the 60° to 85° F (16° to 30° C) soil temperature range. Frequent light irrigation and/or seed starter mulch is required for optimum germination. Germination should be visible within 14 days; complete turf establishment will take two to six months to exhibit mature growth characteristics.

RECOMMENDED MAINTENANCE PRACTICES

Highest quality and durability are reached using moderate maintenance levels. Allow turf to establish prior to heavy use. Mowing height at 2-3" is recommended (lower mowing heights require higher maintenance).

ENVIRONMENTAL TOLERANCE

Tall Fescue Select Blend is suitable for permanent turf in the cool humid and cool arid zones along with higher elevations in the warm arid and warm humid zones.

INGREDIENTS

A blend of 3 turf-type tall fescue varieties (3 Blue Tag Certified Varieties)

SEEDING RATES

New Establishment

6-8 lb./1000 sq. ft.

Renovation

20-50% existing cover

5-7 lb./1000 sq. ft.

50-75% existing cover

4-6 lb./1000 sq. ft.

PACKAGING INFORMATION

50 lb. bag

#20-24-250

Woven Polypropylene Bags
