

LESCO® POLYPLUS® FERTILIZER

Use PolyPlus® to deliver Enhanced Efficiency nitrogen under the widest variety of environmental conditions.

PolyPlus® fertilizer delivers slow, uniform release for consistent growth, reduced mowing frequency, maximum nutrient take-up, and more balanced feeding and growth cycles—all with a minimum of fertilizer loss. PolyPlus® is recommended for use with turf and ornamentals during all growing seasons and in varying environmental conditions. SiteOne has engineered specific LESCO® PolyPlus® formulations for residential and commercial landscapes, golf courses, and athletic fields - in all geographical climates. Whether used alone, or as a component in blended fertilizers or combination products, PolyPlus® nitrogen is sure to provide high performance and nutrient efficiency at an affordable price.

FEATURES

- ▶ PolyPlus® nitrogen release occurs consistently - regardless of the time of season
- ▶ Release of nitrogen from PolyPlus® is not determined by soil moisture, pH, particle size, soil type or microbial action
- ▶ There is NO delay in nitrogen feeding when PolyPlus® is applied to turf
- ▶ PolyPlus® has low foliar burn potential
- ▶ Use of PolyPlus® reduces nitrogen volatilization, leaching and runoff into the environment
- ▶ Use of PolyPlus® reduces surge growth and clipping weights
- ▶ PolyPlus® nitrogen is available in a variety of SGN sizes to meet all your application needs
- ▶ A true enhanced efficiency nitrogen source!
- ▶ Predictable controlled, metered, linear release of nitrogen
- ▶ Less sensitivity to temperature fluctuations versus other nitrogen sources
- ▶ High technology, ultra-thin polymer coating
- ▶ Very high resistance to attrition.
- ▶ University tested.....customer approved!

POLYPLUS®

- ▶ Elite Particle [SGN 100] - 42-0-0
- ▶ Mini Particle [SGN 150] - 44-0-0
- ▶ Standard Particle [SGN240] - 44-0-0
- ▶ 3-Month Nitrogen Release
- ▶ Yellow in color

POLYPLUS XR® [EXTENDED RELEASE]

- ▶ Standard Particle [SGN 240] - 44-0-0
- ▶ Mini Particle [SGN 150] - 44-0-0
- ▶ Perfect for fairway height turf or applications requiring increased particles per square inch
- ▶ 4-Month Nitrogen Release
- ▶ Yellow in color.

POLYPLUS SL® [SEASON LONG]

- ▶ Standard Particle [SGN 240] - 44-0-0
- ▶ Used in "Season-Long" type of application scenarios
- ▶ 6-Month Nitrogen Release
- ▶ Yellow in color

GENERAL FERTILIZERS

| SKU | DESCRIPTION |
|--------|--|
| 016475 | 5-10-31 21% PolyPlus® |
| 015322 | 8-10-10 50% PolyPlus® AS Micros |
| 088410 | 15-0-15 40% PolyPlus® 30% AS 1Fe 0.4Mn |
| 090642 | 18-0-3 40% PolyPlus® 2Fe |
| 026009 | 19-19-19 All Mineral |
| 026538 | 24-0-11 50% PolyPlus® 2Fe 1Mn |
| 082918 | 24-2-11 40% PolyPlus® 6Fe 1Mn |
| 034474 | 24-5-11 50% PolyPlus® 2Fe 1Mn |
| 090710 | 25-0-6 50% PolyPlus® MOP 5Fe |
| 088707 | 28-0-3 20% PolyPlus® 35% Bio 0.7Fe |
| 088296 | 32-0-8 30% PolyPlus® 2Fe |
| 016481 | 32-3-8 30% PolyPlus® 2Fe |

STARTER FERTILIZERS

| SKU | DESCRIPTION |
|--------|---|
| 098328 | 10-20-20 21% PolyPlus® Starter |
| 090722 | 12-24-8 25% PolyPlus® MOP Starter |
| 090767 | 14-20-4 20% PolyPlus® 30% Bio MOP .36Fe Starter |
| 098100 | 18-20-3 25% PolyPlus® MOP Starter |
| 016420 | 18-24-12 25% PolyPlus® |
| 032595 | 18-24-12 50% PolyPlus® Starter |
