## ALL PRO TEAM MATES MIX

TURF-TYPE TALL FESCUE AND PERENNIAL RYEGRASS

Highest Germination Rate | Advanced Testing | Unparalleled Standards

### FEATURES

- Advanced generation cultivars
- Dark green color
- Heat and drought tolerant
- Excellent traffic tolerance
- Fast establishment
- Good disease and insect resistance

### AGRONOMIC CHARACTERISTICS

All Pro Team Mates Mixture will provide a durable, traffic tolerant turf that will withstand heat, drought and low maintenance. The addition of turf-type perennial ryegrass aids in quick establishment and recovery. All Pro Team Mates Mix is suitable for sun and partial shade conditions. This mixture is especially suited for athletic fields, parks, and lawns.

### SUGGESTED USAGE

All Pro Team Mates Mix is suitable for golf course roughs, home lawns, athletic fields, commercial turf areas, parks and playgrounds, particularly where irrigation is limited.

### TURF ESTABLISHMENT GUIDELINES

Adequate seed bed preparation is Important In new turf grass establishment as well as in overseeding applications. Check soil pH and apply LESCO starter fertilizer prior to seeding. Cool-season grasses germinate best In the 60° to 85° F (16° to 30° C) soil temperature range. Frequent light Irrigation and/or seed starter mulch Is required for optimum germination. Germination should be visible within 14 days; complete turf establishment will take three to six months to exhibit mature growth characteristics.

### RECOMMENDED MAINTENANCE PRACTICES

Highest quality and durability are reached using moderate maintenance levels. Allow turf to establish prior to heavy use. Mowing height at 2-3" is recommended (lower mowing heights require higher maintenance).

### ENVIRONMENTAL TOLERANCE

All Pro Team Mates Mix is suitable for permanent turf In the cool humid and cool arid zones along with higher elevations in the warm arid and warm humid zones.

### INGREDIENTS

80% Tall Fescue  
(3 Varieties)  
20% Perennial Ryegrass

### SEEDING RATES

#### New Establishment

6-8 lb./1000 sq. ft.

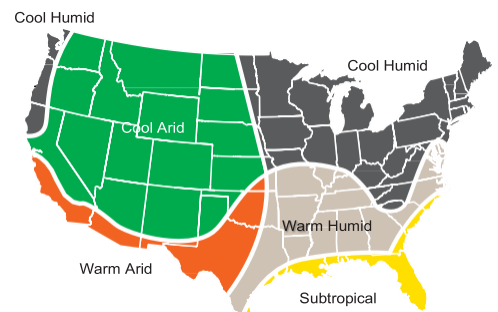

#### Renovation

20-50% existing cover  
5-7 lb./1000 sq. ft.

50-75% existing cover  
4-6 lb./1000 sq. ft.

### PACKAGING INFORMATION

50 lb. bag  
#20-22-250  
10 lb. bag  
#083293  
50 lb. Cert/Opti-Root Treated  
#20-22-350  
Woven Polypropylene Bags
