

# FREEDOM SEED MIX

TURF-TYPE PERENNIAL RYEGRASS, KENTUCKY BLUEGRASS, AND FINE FESCUE

Highest Germination Rate | Advanced Testing | Unparalleled Standards

## FEATURES

- Advanced generation cultivars
- Moderate to low maintenance
- Good for full sun to moderate shade
- Quick establishment
- Rich green color and fine texture
- All-purpose turf mixture

## AGRONOMIC CHARACTERISTICS

Freedom Seed Mix is designed for general turf applications where durability is important. Freedom Mix is good for full sun to moderately shaded conditions. This product can tolerate a wide range of soil conditions and maintenance practices. Freedom Mix is a good quality lawn mix and will form a dense, attractive turf.

## SUGGESTED USAGE

Freedom Mix is suitable for parks, cemeteries, commercial turf areas and home lawns. This product can be used for renovation and repair of existing lawns and is an excellent product for hydroseeding.

## TURF ESTABLISHMENT GUIDELINES

Adequate seed bed preparation is important in new turf grass establishment as well as in overseeding applications. Check soil pH and apply LESCO starter fertilizer prior to seeding. Cool-season grasses germinate best in the 60° to 85° F (16° to 30° C) soil temperature range. Frequent light irrigation and/or seed starter mulch is required for optimum germination. Germination should be visible within 14 days; complete turf establishment will take three to six months to exhibit mature growth characteristics.

## RECOMMENDED MAINTENANCE PRACTICES

Highest quality and durability are reached using moderate maintenance levels. Allow turf to establish prior to heavy use. Mowing height at 1 1/2" to 2 1/2" is recommended (lower mowing heights require higher maintenance).

## ENVIRONMENTAL TOLERANCE

Freedom Mix is adapted throughout the cool arid and cool humid zones.

## INGREDIENTS

70% Perennial Ryegrass  
20% Creeping Red Fescue  
10% Kentucky Bluegrass

## SEEDING RATES

### New Establishment

4-5 lb./1000 sq. ft.

### Renovation

20-50% existing cover  
3-4 lb./1000 sq. ft.

50-75% existing cover  
2-3 lb./1000 sq. ft.

## PACKAGING INFORMATION

50 lb. bag  
#20-43-600  
Woven Polypropylene Bags
