

# LESCO®

## METRO MIX

TURF-TYPE PERENNIAL RYEGRASS, KENTUCKY BLUEGRASS, AND FINE FESCUE

Highest Germination Rate | Advanced Testing | Unparalleled Standards

### FEATURES

- Advanced generation cultivars
- Moderate to low maintenance
- Good for full sun to moderate shade
- Quick establishment
- Rich green color and fine texture

### AGRONOMIC CHARACTERISTICS

Metro Seed Mix is designed for general turf applications where durability is important. Metro Mix is good for full sun to moderately shaded areas. This mix can tolerate a wide range of soil conditions and maintenance practices. Metro Mix is an excellent lawn mix and will form a dense, fine textured attractive turf.

### SUGGESTED USAGE

Metro Mix is suitable for parks, cemeteries, commercial turf areas and home lawns. Metro Mix can be used for renovation and repair of existing lawns and is an excellent product of hydroseeding.

### TURF ESTABLISHMENT GUIDELINES

Adequate seed bed preparation is important in new turf grass establishment as well as in overseeding applications. Check soil pH and apply LESCO starter fertilizer prior to seeding. Cool-season grasses germinate best in the 60° to 85° F (16° to 30° C) soil temperature range. Frequent light irrigation and/or seed starter mulch is required for optimum germination. Germination should be visible within 14 days; complete turf establishment will take six to eight months to exhibit mature growth characteristics.

### RECOMMENDED MAINTENANCE PRACTICES

Highest quality and durability are reached using moderate maintenance levels. Allow turf to establish prior to heavy use. Mowing height at 1 1/2" to 2 1/2" is recommended (lower mowing heights require higher maintenance).

### ENVIRONMENTAL TOLERANCE

Metro Mix is adapted throughout the cool arid and cool humid zones.

### INGREDIENTS

45% Perennial Ryegrass  
(2 Varieties)  
20% Kentucky Bluegrass  
20% Chewings Fescue  
15% Creeping Red Fescue

### SEEDING RATES

**New Establishment:**  
3-4 lb./1000 sq. ft.

**Renovation**  
20-50% existing cover:  
2-3 lb./1000 sq. ft.

50-75% existing cover:  
1.5-2 lb./1000 sq. ft.

### PACKAGING INFORMATION

50 lb. bag  
#20-90-250  
25 lb. bag  
#20-90-252  
Woven Polypropylene Bags
