

## MIDWEST WILDFLOWER MIX

ANNUAL AND PERENNIAL WILDFLOWER MIX

Highest Germination Rate | Advanced Testing | Unparalleled Standards

### FEATURES

- Suitable for states in the Midwest U.S.
- Contains annual and perennial wildflowers
- Mature Flower / Plant Height: 24-36"
- Prefers full sun

### AGRONOMIC CHARACTERISTICS

The Midwest Seed Mixture contains annuals and perennials for ornamental landscaping in the midwestern U.S. and south central Canada. This area includes IL, IN, IA, eastern KS, KY, MI, MN, MO, eastern NE, OH, WI, and the southern halves of Manitoba and Ontario. Flowers will provide color throughout the growing season.

### SUGGESTED USAGE

Garden beds, borders, and meadow gardening.

### ESTABLISHMENT GUIDELINES

The best time to plant depends on climate. For cool climates, plant in the spring after the last frost, early summer or fall. A smooth, weed and vegetation free planting bed is important for good seed to soil contact and prompt germination. For smaller areas, seed can be broadcast by hand or use of a drop or cyclone spreader. Mix seed with a carrier such as sand or vermiculite. For larger areas, a drill or hydroseeder is effective. When hydroseeding, a 2-step process is recommended. For irrigated sites, keep seeded area consistently moist for 4-6 weeks and then gradually reduce watering. In arid climates or during drought conditions, provide up to ½ inch of supplemental water per week or during the growing season.

### RECOMMENDED MAINTENANCE PRACTICES

Weeds should be sprayed or pulled as soon as they can be identified. Monitor moisture levels in order to maintain optimal growth and flowering. The area may be cut or mowed in the fall following seed set. Mow to a height of 4-6 inches. Overseeding can be done each season in order to provide additional annuals or to fill in bare spots.

### INGREDIENTS

Common Name	Scientific Name
New England Aster	Aster novae-angliae
Dwarf Cornflower	Centaurea cyanus
Shasta Daisy	Chrysanthemum maximum
Lance Lvd. Coreopsis	Coreopsis lanceolata
Plains Coreopsis	Coreopsis tinctoria
Purple Prairie Clover	Dalea purpurea
Purple Coneflower	Echinacea purpurea
Indian Blanket	Gaillardia pulchella
Annual Baby's Breath	Gypsophila elegans
Annual Candytuft	Iberis umbellata
Scarlet Flax	Linum grandiflorum rubrum
Corn Poppy	Papaver rhoeas
Mexican Hat	Ratibida columnifera
Clasping Coneflower	Rudbeckia amplexicaulis
Black-Eyed Susan	Rudbeckia hirta

### PLANTING REGION

Midwest

### NEW ESTABLISHMENT

1 lb. / 3,000 sq. ft.

5-10 lbs. / acre

### PACKAGING INFORMATION

#LEMW1 | 1 lb. bag

#MWVM | Bulk - Custom Qty Bag
