## Momentum® XPD

Herbicide

### FAST, EFFECTIVE BROADSPECTRUM CONTROL OF THE TOUGHEST WEEDS WITH OUR ADVANCED PROPRIETARY NON 2,4-D FORMULATION

#### PRODUCT OVERVIEW

Tackle the toughest broadleaf weeds faster with LESCO® Momentum XPD, combining four powerful active ingredients to control more than 90 broadleaf weeds. Get rapid and enduring results the first time. Plus, LESCO Momentum XPD is a non-2,4-D herbicide to use amidst 2,4-D regulations.

#### FEATURES & BENEFITS

- **Fast and Visible Results:** Delivers quick knockdown, faster weed removal, and fewer callbacks
- **Cost Effective Performance:** Combines four powerful active ingredients to save time and reduce overall costs
- **Season Long Effectiveness:** Provides enhanced activity on tough, slow growing spring and fall weeds
- **Annual and Perennial Power:** Efficiently tackles tough and relentless weeds, ensuring complete plant elimination

#### TARGET WEEDS CONTROLLED

Ground Ivy, Wild Violet, Clover, Dandelion, Chickweed, Wild Onion, Spurge, and many more.

Carfentrazone-ethyl .....	0.49%
<b>OTHER INGREDIENTS: .....</b>	<b>61.30%</b>
<b>TOTAL</b>	<b>100.00%</b>

#### PACKAGING INFORMATION

1 gal | #10869041  
2.5 gal | #10869225  
30 gal | #10869030  
250 gal | #10869250

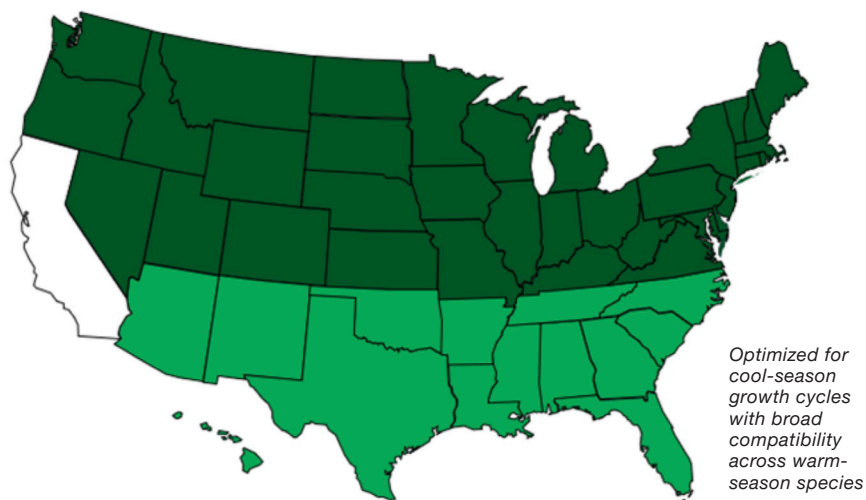

EPA REG. NO. 228-760-10404

#### USE SITES

## APPLICATION VERSATILITY

- **Cool-Season Strength:** Specifically optimized for peak performance on northern grasses.
- **Warm-Season Adaptability:** Engineered to be safe and effective on southern turf varieties.
- **Broad Utility:** A flexible solution for landscapes featuring mixed or transitioning grass types.

TURFGRASS CATEGORY	FLUID OZ (PER 1,000 SQ. FT.)	FLUID OZ (PER ACRE)	PINTS (PER ACRE)
<b>COOL-SEASON</b> (Bluegrass, Ryegrass, Fescues)	1.1 to 1.7 fl. oz.	48 to 72 fl. oz.	3 to 4.5 pts.
<b>BENTGRASS</b> (Creeping & Colonial)	1.0 to 1.1 fl. oz.	44 to 48 fl. oz.	2.75 to 3 pts.
<b>WARM-SEASON</b> (Bermuda, Zoysia, etc.)	1.0 to 1.3 fl. oz.	44 to 56 fl. oz.	2.75 to 3.5 pts.

## KEY USAGE NOTES

**Stress Factors:** Use lower rates if the grass is stressed by heat, drought, or if it is kept at a lower mowing height (like fairways).

**Timing:** For the best results, apply when weeds are small and actively growing.

**Warm-season Restrictions:** Do not apply during "spring green-up" or during the late fall transition into dormancy.

**Centipedegrass:** Start with the lowest recommended rates until you can determine the grass's specific tolerance to injury.

**Bentgrass Exclusion:** Do not use this product on golf greens, tees, or aprons.

## OPTIMIZE EVERY SPRAY WITH LESCO ADJUVANTS

**LESCO Recede** knocks down foam during mixing

**LESCO Vacate** cleans out tank and prevents contamination

**LESCO Spreader Sticker** increases wetting ability and contact time on target

**LESCO Tracker Blue WSP** provides an unmistakable guide with a highly visible blue color – specially formulated not to leave residue

**LESCO Tracker Green WSP** provides an unmistakable guide with a highly visible green color – specially formulated not to leave residue
