

TALL FESCUE SOD BLEND

SOD QUALITY TALL FESCUE BLEND

Highest Germination Rate | Advanced Testing | Unparalleled Standards

FEATURES

- Advanced generation cultivars
- Dark green color
- Heat and drought tolerant
- Dense upright growth habit
- Meets sod quality requirements
- Zero Crop | Zero Weed
- Triple Tested

AGRONOMIC CHARACTERISTICS

Tall Fescue Sod Blend will provide a durable turf that will tolerate drought, heat, shade, and traffic. The varieties in Tall Fescue Sod Blend contain endophytes to increase resistance to surface feeding insects. When seeded at recommended rates, Tall Fescue Sod Blend will form a dense, fine textured turf with excellent mowing qualities. Tall Fescue Sod Blend components have undergone turf trials to screen for undesirable traits including disease resistance.

SUGGESTED USAGE

Sod farms, home lawns, golf course roughs, commercial turf, parks and cemeteries.

TURF ESTABLISHMENT GUIDELINES

Adequate seed bed preparation is important in new turf grass establishment as well as in overseeding applications. Check soil pH and apply LESCO® starter fertilizer prior to seeding. Cool-season grasses germinate best in the 60° to 85° F (16° to 30° C) soil temperature range. Frequent light irrigation and/or seed starter mulch is required for optimum germination. Germination should be visible within 14 days; complete turf establishment will take two to six months to exhibit mature growth characteristics.

RECOMMENDED MAINTENANCE PRACTICES

Highest quality and durability are reached using moderate maintenance levels. Allow turf to establish prior to heavy use. Mowing height at 2" to 3" is recommended (lower mowing heights require higher maintenance).

ENVIRONMENTAL TOLERANCE

Tall Fescue Sod Blend is best adapted to the cool arid and cool humid regions of the US along with higher elevations in the warm humid region.

INGREDIENTS

100% Tall Fescue
(2-3 Sod Quality Varieties)

SEEDING RATES

New Establishment:

400 lb./acre

PACKAGING INFORMATION

50 lb. bag
#24-14-028
Woven Polypropylene Bags
Oregon Certified Blend
