PennMulch®

Seed Accelerator®

LebanonTurf's PennMulch Seed Accelerator is a pelleted seed establishment mulch comprised of recycled newsprint, starter fertilizer, Hydrobond™ tackifier and Moisture Cell Technology®. Adaptable to any soil type, PennMulch is ideal for establishing a thicker healthier lawn in one convenient application. Perfect for landscapers, golf course superintendents, athletic field managers and other turf professionals.

After watering PennMulch it will expand to 3 times its original size allowing it to retain moisture and improve seed establishment.

• **Faster Turf Establishment**

A full application rate of starter fertilizer provides the nutrients necessary to establish a strong turf stand as quickly as possible

• **Better Germination**

Moisture Cell Technology incorporated in each granule stores water to help prevent seedlings from drying out

• **Binds Mulch & Seed**

Hydrobond tackifier creates a matrix of the mulch and seed to prevent movement during the critical time of seedling development.

Application Instructions:

- 1. Prepare the seed bed
- 2. Spread the seed and lightly rake into the soil
- 3. Apply PennMulch at a rate appropriate for the application
- 4. For best results, irrigate after applying PennMulch, with 0.1 – 0.2 inches (0.3 – 0.5 cm) of water.

Rate	Nitrogen/1000 Sq. Ft.	Phosphate / 1000 Sq. Ft.	Potash / 1000 Sq. Ft.
50lb/1000 Sq. Ft.	0.5 lb	1 lb	0.25 lb

PennMulch Application Rate

Slope Condition	Rate
Flat to 5H:1V	50lb / 1000 Sq. Ft. (22.7kg / 93m ²)
5H:1V to 4H:1V	75lb / 1000 Sq. Ft. (34kg / 93m ²)

Note: Dry PennMulch (at a rate of 50lb/1000 Sq. Ft.) covers approximately 25% of the exposed soil.

Precautionary Statements for handling:

Keep out of reach of children
Precautionary Statements for disposal - Dispose in accordance with all federal, state and local regulations.
