

Lebanon Seaboard Corporation

## SAFETY DATA SHEET

Revision Date: 11/11/2014

### 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND COMPANY

Product Name: Lebanon Pro 13-0-4 50% LSN .38% Prodiamine

EPA No: 961-365

Recommended use

This product is a mixed fertilizer/herbicide for landscape use.

**Supplier/Manufacturer**

Lebanon Seaboard Corporation  
1600 East Cumberland Street  
Lebanon PA 17042

Tel: (800) 233-0628 (717-273-1685)

Supplier Email: customerservice@lebsea.comEmergency telephone number

800-233-0628

Chemtrec 1-800-424-9300

Prosar 888-208-1368

### 2. HAZARDS IDENTIFICATION

OSHA Signal Word: Warning

EPA Signal Word: Caution

**Hazard Statements:**

May cause allergic skin reaction with repeated contact.

Suspected of damaging fertility or unborn child. Active ingredient (prodiamine) is toxic to fetus at high doses (rats).

May irritate the digestive tract if ingested.

Keep out of reach of children.

Pictogram: Silhouette, Exclamation Point

Precautionary Statements for handling: See Section 7.

Precautionary Statements for disposal - Dispose in accordance with all federal, state and local regulations.

**Hazards not otherwise classified (HNOC):** None

Unknown acute toxicity

0% of the mixture consists of ingredients of unknown toxicity

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS No.	Weight %
Prodiamine	29091-21-2	0.38%
Nonhazardous fertilizer ingredients and fillers	Various	Balance

### 4. FIRST AID MEASURES

Eye Contact

Rinse eyes with water. If discomfort or irritation persists contact a physician.

Skin Contact

Wash with soap and water. If injury occurs, or if discomfort or irritation persists contact a physician.

Inhalation	If inhaled and discomfort occurs, move to fresh air, and keep person at rest in a position comfortable for breathing. If difficulty in breathing occurs and/or persists, administer oxygen and get medical attention. If medical advice is needed, have product container or label on hand.
Ingestion	Rinse mouth. Drink Plenty of water. If discomfort occurs, seek medical attention. Do not induce vomiting of an unconscious person.

**Self-protection of the first aider:** Use any appropriate personal protective equipment as required to avoid breathing dust, and to avoid eye and skin contact.

**Most important symptoms and effects, both acute and delayed:**

Symptoms: Dust irritation with nasal discomfort, or skin irritation possible.

**Indication of any immediate medical attention and special treatment needed:** Treat Symptoms.

## 5. FIRE FIGHTING MEASURES

### **Suitable extinguishing media**

Use extinguishing media suitable to local circumstances and the surrounding environment. Options in this case include water, CO<sub>2</sub>, ABC Dry Chemical extinguisher, or foam. Avoid stirring up dust with water stream.

### **Specific hazards arising from the chemical**

Thermal decomposition can lead to release of irritating and toxic gases and vapors. In the event of fire, do not breathe fumes.

### **Explosion data**

Sensitivity to mechanical impact: None

Sensitivity to static discharge: None

Note: Excessive amounts of any burnable dusts can produce explosive mixtures if allowed to disperse in the air in confined areas where ignition sources occur. Prevent excessive dust dispersal in areas of use, storage, or production.

### **Protective equipment and precautions for firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and standard protective gear.

## 6. ACCIDENTAL RELEASE MEASURES

### **Personal precautions, protective equipment, and emergency procedures**

Personal Precautions	Use reasonable personal protective equipment as required to prevent contact with eyes or skin and to avoid breathing dust. Remove ignition sources prior to clean-up.
Environmental precautions	Prevent entry into waterways, sewers, basements or confined areas. Do not flush into surface water or sanitary sewer system. See Section 12 for additional ecological information.
Methods for containment	Prevent further leakage or spillage, if safe to do so.
Methods for clean-up	Use reasonable personal protective equipment as required. Cover powder spill with plastic sheet or tarp to minimize spreading and keep powder dry. Take up mechanically, placing in appropriate containers for disposal. Avoid creating dust. Clean contaminated surface thoroughly. Soak up excess with inert absorbent material.

## 7. HANDLING AND STORAGE

- Safe Handling            Ensure adequate ventilation, especially in confined areas. Use personal protective equipment as required. Wash hands thoroughly after handling.
- Storage Conditions    Keep containers tightly closed in a cool, well- ventilated place. Keep away from food, drink and animal feed. Keep out of the reach of children.
- Incompatible materials    Avoid strong acids or alkali, or other reactive substances.

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

Exposure Guidelines

Chemical Name	ACGIH TLV	OSHA PEL	NIOSH IDLH*
Nuisance Dusts	10 mg/m <sup>3</sup> (TWA)	15 mg/m <sup>3</sup> (TWA total) 50 mppcf (TWA total) 5 mppcf (TWA respirable)	Not Established

\*IDLH refers to amounts that are "Immediately Dangerous to Life or Health"

Other Information:

Engineering controls: Use with adequate ventilation to prevent dust buildup in air.

**Individual protection measures**

- Eye protection            Safety glasses, or goggles if eye contact is likely
- Skin and Body Protection    Gloves and coveralls recommended.
- Respiratory Protection    Dust mask recommended for dusty or misty conditions. If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Respiratory protection must be provided in accordance with current local regulations.
- General Hygiene            When using product, do not eat, drink or smoke. Wash hands thoroughly after handling. Wash contaminated clothing before reuse.

**9. PHYSICAL AND CHEMICAL PROPERTIES**

- Physical state            Solid
- Appearance            Granules
- Color                    Mixed, various
- Odor                     Slight
- Odor Threshold        No information available
- pH                        Not applicable
- Melting point/freezing point    Not applicable
- Boiling point / boiling range    Not applicable
- Flash point            No information available
- Evaporation rate        Not applicable
- Flammability (solid, gas)    No information available
- Flammability Limits in Air
  - Upper flammability limit:    No information available
  - Lower flammability limit:    No information available
- Vapor pressure        Not applicable
- Vapor density            Not applicable
- Specific Gravity        Not applicable

Water solubility	Mostly Insoluble in water, although some ingredients may dissolve.
Solubility in other solvents	No information available
Partition coefficient	No information available
Autoignition temperature	No information available
Decomposition temperature	No information available
Oxidizing properties	No information available

## 10. STABILITY AND REACTIVITY

### Reactivity

Stable

### Chemical stability

Active ingredient (prodiamine) is electrically conductive.

### Possibility of Hazardous Reactions

May release heat and fumes when mixed in solution with incompatible reactive materials.

### Hazardous polymerization

Will not occur.

### Conditions to avoid

High heat, sparks and open flames, as some ingredients may be burnable.

### Incompatible materials

Strong acids or alkali, or other reactive substances.

### Hazardous Decomposition Products

May emit toxic fumes under fire conditions, such as Nitrogen oxides (NOx), Ammonia, Oxides of sulfur, Hydrogen chloride and Carbon monoxide.

## 11. TOXICOLOGICAL INFORMATION

Routes of exposure: Ingestion, eyes (contact), skin (contact), dust inhalation

Symptoms	May irritate the digestive tract if ingested in quantity, causing nausea, vomiting and diarrhea.
Sensitization	Sensitizing (guinea pig)
Germ cell mutagenicity	No information available
Carcinogenicity	Benign thyroid tumors (rat). None observed in mice.
Reproductive toxicity (prodiamine)	Fetal toxicity at high doses (rats); developmental and maternal toxicity observed at 1g/kg/d.
STOT - single exposure	No information available
STOT - repeated exposure	No information available
Chronic toxicity (prodiamine)	Skin sensitization possible.
Target Organ Effects	Liver (alteration and enlargement) and thyroid effects (hormone imbalances) at high dose levels (rats); Increased body weight gains.
Aspiration hazard	No information available

## 12. ECOLOGICAL INFORMATION

Fertilizers may be harmful to aquatic life with short term effects, causing algal bloom and increased BOD, depending on the amount released.

The herbicide ingredients are toxic to aquatic plants, fish and invertebrates. Use with care when applying to turf areas adjacent to any bodies of water. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff from treated turf may adversely affect aquatic organisms in adjacent bodies of water. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water when disposing of equipment washwater.

Application around a cistern or well may result in contamination of groundwater or drinking water, particularly where soils are permeable and water table is shallow.

**Ecotoxicity**

(prodiamine):

- Fish (Bluegill Sunfish) 96-hour LC50 > 552 ppb
- Invertebrate (Water Flea) Daphnia Magna 48-hour EC50 > 83 ppb
- Bird (Bobwhite Quail) 14-day LD50 > 2250 mg/kg
- Mallard 8-day Dietary LC50: >10,000 mg/L
- Bees LC50/EC50: >100 ug/bee

Persistence and degradability      Persistent and immobile in soil  
 Bioaccumulation                              Does not bioaccumulate.  
 Other adverse effects                      No information available

**13. DISPOSAL CONSIDERATIONS**

This material, as supplied is not a hazardous waste according to federal regulations (40 CFR 261).

**Disposal of wastes:** (Example)

- This product is a hazardous waste material.
- EPA Waste Numbers are applicable for this product’s components.
- Dispose of in accordance with Local, State, and Federal regulations.

**Contaminated packaging**

US Federal: special packaging considerations for pesticide containers. If the container is empty, do not reuse it. Place it in the trash, unless the label specifies a different procedure. Follow local regulations.

**14. TRANSPORT INFORMATION**

<b>DOT:</b>	Not Regulated	<b>ADR:</b>	Not Regulated
Proper Shipping Name:	Non Regulated	<b>ADN:</b>	Not Regulated
Hazard Class:	Not Applicable	<b>RID:</b>	Not Regulated
<b>IATA:</b>	Not Regulated	<b>IATA:</b>	Not Regulated
Proper Shipping Name:	Non Regulated	<b>TDG:</b>	Not Regulated
Hazard Class:	Not Applicable	<b>ICAO:</b>	Not Regulated
<b>IMDG/IMO</b>	Not Regulated	<b>MEX:</b>	Not Regulated
Hazard Class	Not Applicable		
Marine Pollutant	Yes		

**15. REGULATORY INFORMATION**

**General Product Information:** This product is not federally regulated as a hazardous material.  
**Clean Air Act:** No data  
**Clean Water Act:** No data  
 State Right-to-Know Components:

TSCA STATUS: This product is exempt from TSCA Regulation under FIFRA Section 3(2)(G)(ii) when used as a pesticide.

CERCLA REPORTABLE QUANTITY: No components listed

SARA TITLE III:

Section 302, Extremely Hazardous Substances: None

Section 311/312 Hazard Categories: Chronic Health Hazard (delayed)

Section 313 Toxic Chemicals: None

**State Regulations – General:**

**California Prop 65:**

This product contains detectable quantities of chemicals (prodiamine) known to the State of California to cause birth defects, or other reproductive harm.

This product contains detectable quantities of chemicals (sand mineral - silica) known to the State of California to cause cancer.

**16. OTHER INFORMATION**

**Other Information**

Disclaimer

The information provided in this material safety data sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as guidance for safe handling, use, processing, storage, transportation, disposal, and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
