

PHOTON M

Photon M multi cutter blade is designed for delicate marbles and limestones. Highest quality electroplated diamonds give super fast chip free cuts in the most fragile stones.

- The continuous rim edge gives the cleanest cuts you have ever seen on marble.
- Diamonds all over the body of the blade can be used to grind or sand at amazing speed.
- Comes with quad adaptor hub built in for undercutting and easy tool removal.
- Works great dry or wet.
