BLUE POINT JUNIPER

Juniperus 'Blue Point'

ZONE 4-9

Blue Point Juniper has a pyramidal growth habit. It does not produce flowers, but instead showcases bluish-green foliage that retains its vibrant color throughout the year. This variety is hardy and adaptable, thriving in various climates and soil types.

LANDSCAPE USES:

Accent, Border, Hedge, Privacy Screen, Windbreak

SIZE & GROWTH:

10-12' H x 6-8' W

CARE:

Regular water until established.

HOW TO PLANT:

1. Set your plant and align in your space properly. Dig a hole twice the width of the root ball and a depth to leave 1-2 inches above grade.
2. Add any planting amendments and prepare the soil. Remove any packaging and tags from the plant.
3. Gently scar and loosen the roots and place in the hole.
4. Bring soil up to and cover the root ball of the plant.
5. Water in well.
6. Finish with mulch and water regularly until established.

FEATURES:

- Bluish-green evergreen foliage
- Thrives in various climates and soil types
- Easy care
