Color availability subject to change. Not all colors are available in all products. Color swatches may vary slightly from actual colors due to reproduction limitations. To ensure uniform color, we recommend ordering enough product to complete your project so that units are supplied from the same production run. Architectural Samples are available.

ACCESSORIES

Techniseal®

COLOR BOOT SEALER

- Boosts the original color of pavers
- Penetrating formula - Ideal for slip-prone surfaces
- Stain guard - Repels Contaminants
- Water-based formula
- 5 gallon

WET LOOK SEALER

- Enhances the color of dry cast pavers, leaving them with a rich, high-gloss finish
- Prevents staining and premature erosion
- Sets up a strong protective film that repels contaminants
- 5 gallon

NATURAL LOOK SEALER

- Dislodges efflorescence and ground-in dirt
- Perfect for hazardous, slip-prone areas
- Can be used on Concrete Paver and natural stone
- Impregnating - non-film forming

SATIN LOOK SEALER

- Leaves a smooth satin finish
- Strengthens sand or aggregate joints
- Great for permeable system installations
- Microporous
- All-in-one sealer and joint fortifier

DRIBOND

- Ideal for thin paver overlays
- Driveways, patios, pool-decks and sidewalks
- Dry application
- No mixing - ready to use
- Reduces installation time

Special Order

BORDER BOND

- Easy to use - Straight from the bottle
- Utilize with DriBond for durable border pavers
- Mix with DriBond for increased strength
- Perfect for commercial and residential applications

Special Order

STRUCTURE BOND

- Super-strength hardscape foam adhesive
- Specifically developed for the construction industry
- Quick and easy application with the special "Gun II" dispenser
- Very Precise delivery - No mess, No waste

PAVER PREP

- Heavy-duty efflorescence cleaner that also dislodges other types of staining contaminants
- Allows for optimal surface preparation prior to sealer application
- Brightens up the color of pavers without damaging them
- Extends the durability of sealing jobs by

SLURRY REMOVER

- Removes cement slurry and polymeric sand haze
- Bare surfaces
- Concrete or clay pavers and slabs

NEXTGEL

- The hardscape industry's leading high-duty polymeric jointing sand
- Backed by a 20-year warranty
- Optimal performances in high-humidity environments, heavy vehicular traffic areas and steeper terrain
- Tan and Granite

NOCO

- No Compaction
- Ideal for flagstones and natural stones
- For joints from 1/4" to 4" wide
- Perfect for patios, pool decks, walkways, and other pedestrian projects
- 20-year limited warranty

EZ BASE SYSTEM

- Easy to install
- Saves up to 8 inches of excavation
- Replaces up to 250 lbs of base aggregates
- Durable - will not degrade in the ground

Special Order

DRI BOND SCREED TOOL

- Made of high-grade durable materials
- No more knee or back pains
- Easy leveling of DriBond concrete overlays
- Faster application and perfect results!

Special Order

SEK SUREBOND HARDSCAPES Done Right!

SEK Snap Edge

- Injection molded design, incorporating features that provide strength and stability
- Thick back walls that are reinforced by buttresses giving the strength needed to keep an interlocking pavement system in place
- Strong interlocking joint held together with a spike to make a secure connection and provide extra support

SB-10 Paver Bond Adhesive

- Faster Setup
- Rigid & Durable
- Can Be Applied on Wet & Frozen Block

VERSA-Lifter

- The VERSA-Lifter makes it easier to lift and place wall units, especially on the base course
- The two prongs on the lifter are placed into the holes in the VERSA-LOK Standard unit
- The action of lifting the handle secures the lifter to the unit and makes for easy, balanced lifting and placement

VERSA-LOK® Retaining Wall Systems Solid Solutions.™

VERSA-TUFF Pins

- Pins are inserted in the holes of an upper unit and tapped into receiving slots of two lower units
- Top-pinning makes installation easy because the units do not have to be lowered onto pins
- Improved performance and shear strength

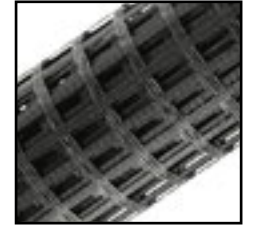

Grid-Lok 270, 370, 540
6' x 300' (200 sy.)

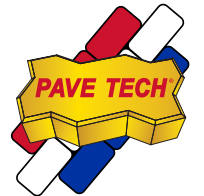

geostar technologies

Dependable GeoGrid, available in a wide variety of strengths, and the finer-patterned GeoFace are Geostar's polyester grid lines. Connection tested with all major SRW products, this is the stuff viability is made of and technical data is readily available that proves it.

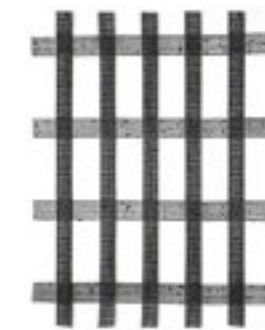

Designed to split concrete products only (not for natural stone)

- Fixed, angled table
- Perfect splitter for tumbled pavers
- Enables operators to make double cuts and undercuts
- Ensures tight abutting of split paver

STRATA

Sleeve-It® SD-1 is a pre-engineered fence post anchoring solution for enhancing below-grade foundational stability in fences placed on top of a segmental retaining wall (SRW)

- StrataGrid® is a high performance soil reinforcement product
- It is made with polyester yarns that have a high molecular weight and extraordinary tensile strength
- These yarns are then knitted into a dimensionally stable network of apertures to form the geometric grid shape
- Offers tensile reinforcement to the soil in both the vertical and horizontal directions.

AVAILABLE IN 200 AND 350
