

NEW & IMPROVED Green Feeder System P1X-ETC5G

A complete package to automatically fertilize and/or control pest each time your use your irrigation system.

System Features

- (Contains: GreenFeeder, Tank and Jumbo Valve Box)
- Stow N' Flow Automatic Injection System. The Stow N' Flow marries the convenience of the GreenFeeder with a 5 gallon tank for larger lawns. The GreenFeeder easily installs on any irrigation system and allows for automatic fertilization and/or pest control every time you water. The GreenFeeder adjusts the feed rate based on water flow, so users don't have to worry about over- or under feeding. The Stow N' Flow includes the GreenFeeder, 5 gallon tank and Jumbo Valve Box for hidden installation. The Stow N' Flow system allows you to fertilize your yard with Grass So Green Fertilizer and keep pests away using Natureshield all at the same time by mixing these formulas in one easy to use tank.
