

TetraSan[®]

5 W D G
MITICIDE/OVICIDE

MITES CAN'T HIDE.

With excellent translaminar movement, TetraSan[®] 5 WDG affects spider mites at all life stages without harming beneficial insects. TetraSan controls spider mites on the underside of leaves, even when it's difficult to get good under-leaf spray coverage and its unique mode of action offers residual control up to five weeks.

COMPETITIVE ADVANTAGES

QUICK AND LASTING SPIDER MITE CONTROL

- Contact and translaminar activity: controls without under-leaf spray coverage
- Flexible application timing
- Extended residual activity

AT-A-GLANCE INFO

EPA REG. NO.	59639-108
ACTIVE INGR.	etoxazole (5%)
FORMULATION	water-dispersible granule
CHEM. FAMILY	oxazoline
IRAC NO.	10B
SIGNAL WORD	caution
RESTRICTED	no
PACKAGE SIZE	2 oz water soluble bag (8 per case)

KEY INSECTS CONTROLLED

(See product label for complete list)

Spider mites:

- Citrus red mite
- European red mite
- Lewis spider mite
- Pacific spider mite
- Southern red mite
- Spruce spider mite
- Two spotted spider mite

USE SUMMARY

Mix with sufficient water and apply as a foliar spray to obtain uniform coverage.

TetraSan[®] 5 WDG kills mite eggs (ovicidal) and nymphs, but not adult mites. For best control, apply at first sign of infestation and before large numbers of adult mites are present. Make a second application if necessary, but no sooner than 14 days after the first application.

Use higher rates for moderate to heavy infestations, especially with dense plant canopies. If rapid control (<7 days) of adult mites is required, apply TetraSan 5 WDG in combination with a contact adulticide.

See label for complete directions for use.

RESISTANCE MANAGEMENT

TetraSan 5 WDG should be used in alternation with other miticide materials possessing dissimilar modes of action and/or with other chemical classes of miticides. Due to its unique chemistry and mode of action, TetraSan 5 WDG can be used in rotation with all other registered miticides in integrated pest management (IPM) and resistance management (RM) programs. Follow local, state and federal IPM and RM recommendations.

See label for complete application rates and recommendations.
