KONG® LIME SPRITE COLEUS

Solenostemon Scutellarioides 'Lime Sprite'

ZONE 9-11

Kong® Lime Sprite has striking foliage that steals the spotlight with its vibrant lime-green color and bold, deep burgundy veins. It has huge leaves and can easily brighten up a shady spot. It is an ideal plant for adding a splash of seasonal color and interest to containers and outdoor spaces.

LANDSCAPE USES:

Bed, Border, Container, Annual Color

SIZE & GROWTH:

18-20" H X 15-18" W

CARE:

Prefers infrequent watering after establishment.

HOW TO PLANT:

1. Set your plant and align in your space properly. Dig a hole twice the width of the root ball and a depth to leave 1-2 inches above grade.
2. Add any planting amendments and prepare the soil. Remove any packaging and tags from the plant.
3. Gently scar and loosen the roots and place in the hole.
4. Bring soil up to and cover the root ball of the plant.
5. Water in well.
6. Finish with mulch and water regularly until established.

PATENT NO. PAS904340

Propagation Prohibited

FEATURES:

- Prefers full shade for best performance
- Huge and unique foliage
- Also works as an indoor plant
- Heat tolerant
