'JURASSIC GOLD' WOOD FERN

Dryopteris Wallichiana 'Jurassic Gold'

ZONE 5-9

Prized for its foliage, this fern adds excellent color to shady gardens. Fronds emerge bright, golden-orange, eventually fading to golden-yellow and green. It is a great addition to shaded areas, foundation plantings, and woodland gardens.

LANDSCAPE USES

Bed, Border, Container, Foundation, Mass.

SIZE & GROWTH:

18-24" H x 14-18" W

CARE:

Remove faded fronds. Plants can be divided when crowded. Regular water until established.

HOW TO PLANT:

1. Set your plant and align in your space properly. Dig a hole twice the width of the root ball and a depth to leave 1-2 inches above grade.
2. Add any planting amendments and prepare the soil. Remove any packaging and tags from the plant.
3. Gently scar and loosen the roots and place in the hole.
4. Bring soil up to and cover the root ball of the plant
5. Water in well.
6. Finish with mulch and water regularly until established.

PATENT NO. PP32735

Propagation Prohibited

FEATURES:

- Colorful foliage
- Shade tolerant
- Low maintenance
- Great centerpiece for containers
