FUNGICIDE

Strobe™ 50WG

Broad Spectrum Fungicide for Control of Plant Diseases in Turf and Ornamentals

ACTIVE INGREDIENT:

% BY WEIGHT

Azoxystrobin:

methyl (2E)-2-(2-[[6-(2-cyanophenoxy) pyrimidin-4-yl]oxy]phenyl)-3-methoxyacrylate*50.0%

OTHER INGREDIENTS:50.0%

Strobe 50WG fungicide consistently provides exceptional disease control for extended intervals and improves overall turf quality.

Strobe 50WG controls a broad spectrum of more than 20 Turfgrass diseases, including Brown patch, Pythium and Snow mold. Strobe 50WG is currently available in a dry sprayable formulation.

Strobe 50WG absorbs thru the leaf blade or stem and is taken up by the root system

Strobe 50WG allows for extended application intervals up to 28 days, depending on disease pressure, allowing for fewer applications.

Please read and follow label directions.
