

Innovative Solutions to Help Your Business Grow

Syngenta offers proven agronomic tools to help your lawn and landscape business grow and be successful. Through extensive research, our team of technical experts has developed a portfolio of solutions to help protect your customers' lawns.

syngenta®

Fungicides

BannerMaxx^{II} Fungicide

- Systemically controls more than 20 diseases, including brown patch, leaf spot and summer patch for up to 28 days

Daconil^{Action} Fungicide

- Contains the active ingredient *chlorothalonil*, which provides broad-spectrum control of diseases like dollar spot, gray leaf spot and brown patch
- Fortified with *acibenzolar-S-methyl* to help turf quickly recover from stress like heat and drought
- Daconil Ultrex[®], Daconil Weatherstik[®] and Daconil Zn[®] Flowable formulations are also available*

Headway^G Fungicide

- Combines the effectiveness of a spray with the convenience of a granular and has a highly water-soluble carrier for quick uptake and a dual mode of action for systemic activity
- Offers broad-spectrum control against major turf diseases such as spring dead spot, large patch, brown patch, red thread and summer patch
- A sprayable formulation of Headway[®] fungicide is also available*

Heritage^G Fungicide

- Protects turf from diseases like leaf spot, brown patch, gray leaf spot and more for up to 28 days
- Can be used with Velista[®] fungicide for exceptional summer patch control
- Heritage[®] 50WDG, Heritage Action[™], Heritage TL and Heritage SC formulations are also available*

Medallion^{SC} Fungicide

- Quickly targets pathogens of key diseases including snow mold, brown patch, large patch and leaf spot
- Translaminar fungicide that protects on the leaf surface, in the thatch and at the soil surface to quickly reduce disease infection

Subdue^{Maxx} Fungicide

- Provides contact and systemic protection against *Pythium* blight, *Pythium* damping-off and downy mildew
- Can be used on turf and bedding plants like flowers, perennials, shrubs and other ornamental plants
- Can be used during seeding to prevent damping-off
- Subdue[®] GR formulation is also available*

Velista[®] Fungicide

- Broad-spectrum SDHI that protects against brown patch, large patch, fairy ring and spring dead spot

Herbicides

Barricade^{4FL} Herbicide

- Guaranteed to provide long-lasting, preemergent weed control in turf and landscape beds with one application
- Labeled to control more than 30 weeds, including summer and winter annuals
- Barricade[®] 65 WG and Barricade on-fertilizer formulations are also available*

Fusilade^{II} Herbicide

- Offers selective post-emergent control of many perennial and annual grassy weeds in landscapes and highly managed turf areas such as zoysiagrass, fine fescue and tall fescue
- Moves quickly to growing points to stop growth of grassy weeds without harming ornamental plants

Manuscript[®] Herbicide

- Spot treatment rate controls mature, grass weeds like tropical signalgrass, crabgrass and dallisgrass in bermudagrass and zoysiagrass so desirable turf can fill in
- Packaged with custom-built Adigor[™] surfactant to provide greater application reliability and outstanding turf safety
- Can be applied near ornamental beds and shrubs

Monument^{75WG} Herbicide

- Provides post-emergent control of all major sedges and more than 40 other weeds in bermudagrass and zoysiagrass
- Can be used as an important tool for *Poa annua* control and resistance management along with Barricade brand herbicides and Princep[®] Liquid herbicide

Insecticides

Pennant Magnum Herbicide

- Prevents germination of more than 20 weeds, including goosegrass, yellow nutsedge, smooth crabgrass and large crabgrass
- Can be used on a wide range of warm-season grasses, including bermudagrass, zoysiagrass, bahiagrass, centipedegrass and St. Augustinegrass
- Available for use in landscapes and on landscape beds

Princep Liquid Herbicide

- Provides preemergent control of annual bluegrass, burclover, lawn burweed, common and mouseear chickweed, henbit and more
- Can be applied in the fall to control winter annual weeds, even on semi-dormant turf

Reward Landscape and aquatic herbicide

- Fast-acting, non-selective herbicide that's ideal for non-selective weed control and burn-down in turf and landscapes including as a trim and edge tool

Tenacity Herbicide

- Offers pre- and post-emergent control of more than 46 broadleaf weed and grass species, including crabgrass, ground ivy, yellow foxtail, yellow nutsedge and unwanted bentgrass
- Can be used at seeding to reduce weed competition so new turf can establish faster

Acelepryn Insecticide

- Provides season-long grub control plus control of adult beetles, billbugs, sod webworms and fall armyworms
- Prevents turf caterpillar infestations for up to 4.5 months when applied at the 8 oz./A grub rate
- Offers flexible application rates and can be applied on landscape ornamentals without any known adverse effects on beneficial and non-target organisms
- Acelepryn® on-fertilizer formulation is also available*

Advion Fire ant bait

- Offers season-long control of fire ants with two applications
- Controls "nuisance ants" including pavement ants, turfgrass ants and big-headed ants
- Fast-acting for total colony control within 24-72 hours
- Can be applied as a broadcast or mound treatment to control all fire ant life stages

Caravan G Insecticide/fungicide

- Combines the proven performance of an insecticide and a fungicide for a convenient approach to pest control
- Controls 20 major diseases, grubs, chinch bugs, sod webworms and more with a single application

Meridian 25WG Insecticide

- Up to 12 weeks of southern chinch bug control
- Preventive and curative control of white grubs
- Also controls ants for 8-12 weeks
- No need to water in preventive applications for 5-7 days

Provaunt WDG Insecticide

- Controls European crane flies, mole crickets and turf caterpillars including armyworms, cutworms and sod webworms

Scimitar CC Insecticide

- Provides time-released control and quick knockdown of ants, adult beetles, crickets, chiggers, fleas and ticks

Plant Growth Regulator

Primo Maxx Plant growth regulator

- Foliar absorbed to slow turf growth and promote denser, healthier turf that is better able to withstand stress including heat, drought, disease and traffic
- Helps maintain lower mowing heights and reduces mowing frequency
- Boosts turf aesthetics, improves pre-stress conditioning and conserves valuable resources like labor and equipment

* Benefits of these formulations may vary.

Digital Tools to Help Your Business Grow

In addition to its product portfolio, Syngenta offers several tools and programs on **GreenCastOnline.com** to help you improve your customers' lawns, including:

Tools to help you grow

When you use the right tools, everything grows. Order free homeowner marketing materials to help grow your business.

GrowWithSyngenta.com

Cooling degree day alerts

Monitor the accumulation of cooling below a set air temperature threshold to help time fall herbicide applications to control dallisgrass.

GreenCastOnline.com/CoolingDegreeDays

Soil temperature maps

Automated turf pest alerts based on local soil temperatures.

GreenCastOnline.com/SoilTemperature

GreenCast® Advisory emails

Tips, updates and news from Syngenta technical experts to help you grow your business.

GreenCastOnline.com/GreenCastAdvisories

Growing degree day alerts

Monitor heat accumulation and weather patterns in your area to help refine product application timing.

GreenCastOnline.com/GrowingDegreeDays

GreenTrust® 365 program

Maximize your purchasing power with yearlong rebates, a pallet solution, rebate calculators and more.
