ORGANIC AIR PLANT FOOD

LIQUID FERTILIZER FOR TILLANDSIA

ALL I NEED IS A LITTLE AIR

ORGANIC READY-MADE

NOURISHMENT FOR HAPPIER, BLOOMING AIR PLANTS

This air plant food is perfect for beginners and experienced growers alike. Packed with the organic nutrients that air plants need to bloom and reproduce, our ready to spray fertilizer ensures gentle feeding and nourishment. Now let's get growing!

HOW TO USE

Application

Use once a week by applying a mist around your air plants until leaves are covered. Our formula is gentle enough to be used on even the most sensitive air plants. You can opt for daily feeding instead by using 1-2 light sprays. For open terrariums, aim to apply daily—for closed terrariums, weekly applications are best. **/// SHAKE BOTTLE WELL BEFORE EACH USE**

Watering

Continue watering your air plants regularly (around once per week). The most common method is soaking them in a bowl of room temperature water for 5-10 minutes. Use filtered, bottled, or rainwater for best results. Unfiltered tap water often harms plants and stunts growth.
