Blue Stripe® Hose

Micro-Irrigation

Application:

Toro Micro-Irrigation Blue Stripe® Round Hose is manufactured in the United States from premium grade polyethylene resins. It is used in the most demanding agricultural and nursery micro-irrigation applications worldwide to reliably transport irrigation water and fertilizer to plants and crops. State of the art manufacturing specifications, methods and standards ensure each coil meets stringent quality control standards worthy of carrying the “Blue Stripe® of Quality” trademark.

Features and Benefits:

- Blue Stripe® hose is manufactured from the highest grades of polyethylene resins for durability and reliability.
- Available in a wide range of diameters, wall thicknesses and coil lengths to accommodate required lengths of run, working pressures and terrain.
- Available in blue, white or purple stripes for easy irrigation zone identification.
- Available in white tubing for nursery and extreme climate applications to assist with water temperature control.
- ID control is standard, but OD controlled configurations are available as well.
- A minimum of 2% carbon black is present to prevent ultraviolet degradation.
- State of the art quality control standards and processes ensure consistent high quality production 24/7.
- The Blue Stripe® of Quality Trademark is backed by Toro, the most trusted name in Micro-Irrigation
- Blue Stripe® Clipper Hose provides factory pre-installed clips which dramatically reduces labor costs and installation time, and directs the placement of water.
- 7 year warranty is the strongest in the industry, and backed by industry professionals who care.
