

VEXXIS[®]

HERBICIDE[®]

GRANULAR

A Powerful New Weapon Against Sedges and Kyllingas!

WHAT IT IS

Vexis[®] Herbicide Granular^{*} uses the proprietary new active ingredient pyrimisulfan to deliver exceptional control of sedge and kyllinga species, plus listed broadleaf weeds. The granular formulation reduces the potential for drift or off-target application, and it can be applied to wet or dry turf. And Vexis is labeled for use on established listed cool-season and warm-season turfgrasses, including improved varieties of St. Augustinegrass.

WHAT IT DOES

Vexis Controls

- Nutsedge (purple and yellow)
