The TL80 lets you forget the hassle of ground driven units. These push sprayers are completely electric-powered. A 12-volt pump provides consistent flow to the adjustable spray wand and the front-mounted, adjustable-height boom-less nozzle, which can spray up to 48 inches wide

## Features & Benefits:

- Electric powered and rechargeable
- Mobile unit with large pneumatic tires
- Powder-Coat or Stainless Steel frame
- Covers approx. 51,000 sq. ft. [1.2 acres]
- Will spray ANY liquid solution
- Including ice melt products
- Adjustable Boom-less nozzle
- Hand wand for 'spot' spraying
- Consistent spray pattern
- Ideal for smaller properties, mulch beds, or fenced areas
- Suitable for spot spraying and lane spraying
- Will outperform traditional methods and save on labor
