

SASB DISCLOSURE

ABOUT THIS REPORT

SiteOne Landscape Supply continues to integrate sustainable Environmental, Social and Governance (ESG) initiatives into its business and expand the scope of these initiatives. This year's ESG Report highlights the company's latest accomplishments with respect to the environmental and social issues relevant to our business and discloses certain metrics related to our ESG initiatives.

This report is based on the framework published by the Sustainability Accounting Standards Board (SASB) as well as feedback from our customers, shareholders and suppliers. We hope to use the experience gained in preparing this year's report and feedback from stakeholders to expand the reporting scope to provide more insight into our company in the coming years.

We have evaluated our strategy against the most current and material¹ ESG topics for our business and stakeholders. As such, we have identified applicable provisions of SASB for the Multiline and Specialty Retailers & Distributors industry, which we cross-reference to the SASB Disclosure Matrix.

SASB DISCLOSURE MATRIX

The Sustainability Accounting Standards Board (SASB) is an independent, standards-setting organization whose mission is to develop comparable sustainability metrics for public corporations to disclose material, decision-useful information to investors. We have considered the industry standards (as defined by SASB's Sustainable Industry Classification System) for Multiline and Specialty Retailers & Distributors and we have provided below the relevant data and/or the location of the applicable information in this year's ESG Report.

Unless otherwise specified, the information is as of our fiscal year end 2020. Certain information is not disclosed herein because that information (i) is not considered material for purposes of determining our ESG strategies or is privileged or confidential; (ii) could cause a competitive disadvantage to our business if publicly disseminated; or (iii) is not currently collected in a manner correlative with the related SASB metric.
