

PRE-EMERGENT HERBICIDES

DIMENSION®

Pre-emergent with fertilizer

Controls and suppresses more than 25 different annual grassy and broadleaf weeds when applied before weeds appear. Provides early post-emergence control of crabgrass prior to tillering when used according to label instructions. Also offers season-long control of crabgrass, goosegrass, foxtail, dallisgrass and Poa annua. Will not harm nearby established ornamentals.

Various	LESCO® Dimension Plus Fertilizer

PRE-M®

Pre-emergent herbicide with pendimethalin

A proven performer for annual weed control. Season-long control of major grassy weeds and tough broadleaf weeds, including crabgrass, goosegrass, foxtail, fall panicum, common chickweed, henbit, cudweed, hop clover and more. Labeled for use on most northern and southern turfgrasses.

PRE-M® 3.3 EC

This time-tested performer provides programmed, season-long control of major grassy weeds and tough broadleaf weeds. Provides long-term residual protection [up to eight months].

Delivers excellent results using split applications. Can be used in turfgrass and ornamental areas. The easy-mixing emulsifiable concentrate ensures hassle-free application.

Active ingredient: Pendimethalin.

PRE-M® AQUACAP™

A great value on advanced, pre-emergent control of crabgrass and other weeds. Engineered and packaged for convenient use, AquaCap™ encapsulates a new water-based formulation of pendimethalin in an ultra-thin capsule for improved storage stability and flexibility of handling, mixing and cleanup. Reduced staining potential. Virtually odor-free.

STONEWALL™

Turf and ornamental formulation with prodiamine

Broad-spectrum weed control for the entire landscape. Stonewall can be used on all turfgrasses, both warm- and cool-season, as well as 120 species of trees, shrubs and flowers.

Prevents 29 annual weeds from establishment from seed, including 14 grassy and 15 broadleaf weeds. Provides season-long control.

LESCO® STONEWALL 65WDG

Delivers superior control of crabgrass and other grassy and broadleaf weeds. For use on turf and ornamentals. Low-rate formulation with low soil solubility ensures excellent results all season long. Non-staining. Choose standard or fertilizer combination formulations.

RONSTAR®

The Star Treatment

Ronstar® brand oxadiazon controls pre-emergent weeds through their shoots rather than their roots, so it won't harm turfgrass roots in the process. Can even be used in areas that may need to be sprigged or where turfgrass roots are already weakened due to pest, mechanical or other damage.
