# CARBONIZPN

## SOIL ENHANCER

### NATURAL & SUSTAINABLE

40 LB BAGS, 40 BAGS/PALLET OR (2) 1 YD. SUPER SACKS

**Healthy plants start with healthy soil.** Mirimichi Green Soil Enhancer (CarbonizPN- Soil) helps plants thrive by improving the efficiency of your soil. CarbonizPN Soil Enhancer is a professional blend of premium organics and USDA Certified Biobased Carbon that remains in the soil to increase fertility and water absorption while decreasing nutrient leaching. CarbonizPN also promotes a healthy, long lasting biological rhizome. Mirimichi Green Soil Enhancer is excellent for: establishing turf, top dressing, sod installations, plant beds, tree & shrubs, nurseries, vegetable gardens, and more.

**PART NUMBERS:**  
40 LB BAGS - 10140  
(2)1 YD SUPER SACKS - 1011Y

**Mirimichi Green Soil Enhancer (CarbonizPN-Soil) does more than improve soil health and performance; it improves the health of the environment. In fact, just four cubic feet added to soil will permanently offset carbon dioxide emissions from cars and propane grills.**

### KEY PRODUCT BENEFITS

- Reduces water needs
- Aerates soils and reduces compaction
- Reduces fertilizer and chemical inputs
- Optimizes pH
- Increases nutrient uptake (CEC)
- Provides permanent home for biology
- Sustainable, natural, and safe

SOIL-FLY-R3

➤ ACCELERATES BENEFITS OF SYNTHETIC FERTILIZERS

➤ ACTIVE INGREDIENTS REMAIN IN SOIL FOR YEARS

➤ HELPS PLANTS THRIVE

### APPLICATION RATES

**NEWLY PLANTED TREES AND PLANTS**  
Mix 10 to 20% by volume with existing soil.

**EXISTING TREES AND PLANTS**  
Spread 2 to 4 pounds per DBH above root zone.

**TURF ESTABLISHMENT**  
20 to 40 pounds per 1000 sq ft for most applications.

**GARDENS**  
Spread 1 inch on top of garden and till 4 to 8 inches deep. 40# bag cover 200 to 400 sq ft.
