

Temprid[®]
FX

Temprid FX combines the powerful, co-milled, dual-active formula you trust for knockdown and long-lasting control of hard-to-kill pests with a flexible label that delivers more value. This strength and flexibility gives you the added confidence to take on the toughest jobs, including notoriously hard-to-kill pests, like bed bugs, scorpions and spiders.

Features

at a glance

- // Powerful, broad-spectrum insecticide that controls over 50 pests
- // Can be applied indoors and outdoors, including foliar applications on non-blooming plants
- // Proven to reduce callbacks by over 50%*
- // Effective against key public health pests (including mosquitoes, ticks, etc.) that may transmit various diseases and viruses
- // Enhanced label directions for providing excellent control of scorpions
- // Also ideal for use on occasional invaders
- // Provides contact activity and systemic action
- // Available in multiple sizes, including a convenient, monodose bottle – exact dose for mixing with one gallon of water
