Maximize efficacy and minimize drift of spray applications

OFFSIDE™

Drift Reduction Agent / Deposition Aid / Penetrant

PRINCIPAL FUNCTIONING AGENTS:

Modified vegetable oil, lecithin, alkyl ether ethoxylate	92%
Constituents ineffective as spray adjuvants	8%
TOTAL	100%

All ingredients are exempt from tolerance requirements under 40 CFR 180.

WA Reg. No. 52467-12008

KEEP OUT OF REACH OF CHILDREN CAUTION

PRECAUTIONARY STATEMENT

Causes moderate eye irritation. Harmful if inhaled. Avoid contact with eyes or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment: Wear long-sleeved shirt and long pants, and shoes plus socks.

FIRST AID

Call a poison control center or doctor immediately for treatment advice.

Have the product container with you when calling a poison control center or doctor, or going for treatment.

If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

NET CONTENTS: 1 U.S. GALLON (3.79 L)

GENERAL INFORMATION

OFFSIDE™ is a lecithin-based technology designed to provide improved control of spray applications by modifying the size of individual spray droplets. In untreated spray solutions, many of the spray droplets are either too large (>500 microns) or too small (<150 microns) for most applications. Droplets that are too large fall faster and may bounce off the intended target, landing on the soil where it will not have the desired effect. Droplets that are too small will take longer to reach the intended target and are susceptible to blowing away from the desired application area before they land.

When added to tank mixes, **OFFSIDE™** maximizes the percentage of spray droplets within the ideal size range that will land on their targets for improved efficacy. By augmenting the number of droplets in this range, an applicator can be confident that more of the sprayed solution will hit the intended targets without bouncing off or drifting away.

Ideal For:

- Controlling the deposition of spray solutions onto target pests
- Improving the efficacy of pesticides and other spray applications
- Minimizing spray fines that can be carried away by winds

DIRECTIONS FOR USE

NOT FOR AQUATIC USE IN THE STATE OF WASHINGTON

OFFSIDE™ is intended for use with a wide variety of pesticides and application equipment on highly managed turf, residential and commercial lawns, ornamentals and other vegetation. In the absence of experience using this product, the applicator should conduct a phytotoxicity and compatibility jar test to ensure desired results.

The degree of drift hazard varies with environmental factors. Certain types of pesticides, application conditions, public areas, regulations and the sensitivity of nearby vegetation all have an impact on the need for controlling drift. This product is intended as a spray management tool to be used in conjunction with appropriate application equipment, common sense judgment and sound practices when spraying pesticides.

Always follow the mixing instructions on the pesticide manufacturer's label. If no instructions for a drift control product are mentioned, **OFFSIDE™** should be the last product added prior to filling the tank with water.

USE RATES

	Active Formulation	Suggested Use Rate
Emulsifiable Concentrates or Aqueous Based Herbicides		4 - 6 Ounces per Acre
Dry or Liquid Flowable or Wettable Herbicides		4 Ounces per Acre
	Insecticides	4 Ounces per Acre

NOTE: Do not exceed 1% v/v of the overall spray solution volume.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product. Shake well before using. If product freezes, allow to thaw, then shake well. For optimal storage, store between 40° and 90°F.

DISPOSAL: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

NOT FOR SALE IN MISSISSIPPI

WARRANTY STATEMENT: EXACTO®, INC. (Exacto) represents and warrants that its products are manufactured in accordance with the product's specifications and that its products, at the time of delivery to the purchaser, shall be free from all material defects. EXACTO MAKES NO WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, CONCERNING THE PRODUCT, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE DISCLAIMED. FURTHER, IT IS UNDERSTOOD AND AGREED THAT EXACTO'S LIABILITY SHALL NOT EXCEED THE RETURN OF THE AMOUNT OF THE PURCHASE PRICE PAID BY PURCHASER AND UNDER NO CIRCUMSTANCES SHALL EXACTO BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES.
