

Landings[™]

Step Unit

The Landings[™] step unit adds grand style to entrances and walkways with its quarried limestone look. Integrate into landscape projects or use as a standalone feature. With two unique faces on the rise, units can be nested together to create a landing or installed side by side for longer treads with excellent aesthetics.

Benefits of Landings™ Step Unit:

- Double-sided texture and two unique faces on the rise allow steps to be rotated for optimal aesthetics
- Smooth sides allow steps to be placed side by side for longer treads
- Granite-like texture on tread surface
- Even bottom and consistent size offer installation ease
- Palletized for easy removal by skid-steer loader
- Dry-cast production provides consistent colour throughout unit
- Riser faces are uniquely designed to nest together, creating an optional landing with a narrow joint
