THERMO ICE

**MELTS ICE DOWN TO
-20°F / -29°C**

Safer for Concrete
Melts Faster than Rock Salt
Creates Instant Traction
Not Harmful to Vegetation
Environmentally Friendly

NET WT. 50 LBS. / 22.7kg

THERMO ICE

THERMO ICE

THERMO ICE

Why Salt Depot Thermo Ice Works So Well:

- Salt Depot's Magnesium Chloride additive activates the melting process to -20°F / -29°C .
- Studies confirm that Magnesium Chloride is safer for grass and plants.
- Salt Depot Thermo Ice contains the optimal amount of Magnesium Chloride to achieve a significant melting action.

Directions for use:

For best result use prior to or during a snow storm, evenly spread Salt Depot Thermo Ice on the desired area. After a snow storm it is recommended to shovel or plow accumulated snow prior to application.

Suggested Application Rates: 6 to 10 pounds per 100 sq. ft.

Rate of application may vary due to temperature, snow depth, and ice content. It is also recommended to remove excess slush after applying Salt Depot Thermo Ice.

Caution:

Harmful if swallowed. Keep out of reach of children.

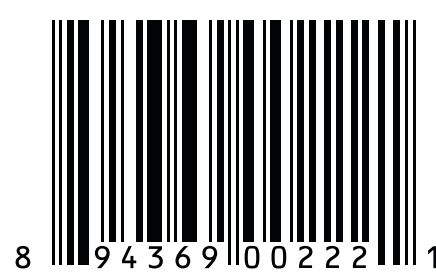

If Salt Depot Thermo Ice gets in eyes flush with water. If irritations are severe or persist, consult a physician. Can irritate skin, wash hands after use.

Note:

Do not use Salt Depot Thermo Ice on concrete that is less than one year old, or that was not properly finished or cured, spalling or flaking may occur. When used properly Salt Depot Thermo Ice will not harm air entrained good quality concrete. If you are unsure of the quality of your concrete please consult a concrete professional.
